# Highlights

### Bluetooth 5.4 multipoint

Bluetooth 5.4 brings you a steadier connection for seamless streaming without annoying dips in the sound. You can connect to two Bluetooth devices at the same time and manage

connected devices via the Philips Headphones app. Android users can also use Google Fast Pair and Windows users can use Microsoft Swift Pair.

### IPX4 splash/sweat resistant

Never mind the weather, an IPX4 rating means these earbuds are splash resistant so they don't mind a little rain! Wearing them on a particularly hot day? They won't mind a little sweat either.

### Comfy fit and touch controls

The ear tips rest gently but securely in your ear canal, and interchangeable silicone ear-tip covers let you find your perfect fit. Touch controls on

the earbuds keep things simple, and you can customise how these controls are set up via the Philips Headphones companion app.

### Philips Headphones app

As well as customising the earbud touch controls, our companion app lets you activate Dynamic Bass or fine-tune your sound with the in-app equaliser. Plus, you can use the app to manage connected devices, keep your earbud's firmware up to date — and more.

### Philips sound signature

From music to podcasts, you'll love what you hear! These true wireless earbuds feature large drivers tuned to the Philips sound signature. Whatever you're into, you'll enjoy a warm, natural sound with deep bass.

### Responsible design

We're continually working to make our supply chain more sustainable and transparent. These earbuds are made with RCS-certified, post-consumer recycled plastics and our plastic-free packaging uses FSC-certified recycled cardboard and soy-based ink.
