1 Important

Safety

- Read these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not block any ventilation openings.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Keep this product away from direct sunlight, naked flames or heat.
- The product shall not be exposed to dripping or splashing.
- Place this product on a flat, hard and stable surface.
- Do not place any source of danger on the product (e.g. liquid filled objects, lit candles).
- Never place this product on other electrical equipment.
- Only use attachments/accessories specified by the manufacturer.
- Never remove the casing of this product, refer all servicing to qualified service personnel. Servicing is required when the product has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- A battery (battery pack or battery installed) shall not be exposed to excessive heat such as sunshine, fire or the like.
- Danger of explosion if batteries are incorrectly replaced. Replace only with the same or equivalent type.
- Battery in extreme high or low temperatures during use, storage or transportation, and low air pressure at high altitude can pose safety hazards.
- Risk of explosion if a battery is replaced by an incorrect type.

- Do not replace a battery with an incorrect type that can defeat a safeguard (for example, some lithium battery types).
- Install all batteries correctly.
- Leaving a battery in an extremely high temperature surrounding, or an extremely low air pressure environment may result in an explosion or leakage of flammable liquid or gas.
- Batteries contain chemical substances. They should be disposed of properly.
- If you suspect that a battery has been swallowed or placed inside any part of the body, seek immediate medical attention.
- When you change the batteries, always keep all new and used batteries out of reach of children. Ensure that the battery compartment is completely secure after you replace the battery.
- If the battery compartment cannot be completely secured, discontinue use of the product. Keep out of reach of children and contact the manufacturer.
- This product shall not be exposed to dripping or splashing.
- Do not place any sources of danger on the product (e.g. liquid filled objects, lighted candles).
- Please use the product safely in an environment with temperature between 0°C and 45°C.

- To avoid risk of fire, the product is supplied only by external power source which output shall comply with PS1 (with output capacity less than 15W).
- The power delivered by the charger must be between min. 5 Watts required by the radio equipment, and max. 15 Watts in order to achieve the maximum charging speed.

2 Your portable radio

Congratulations on your purchase, and welcome to Philips! To fully benefit from the support that Philips offers, register your product at www.philips.com/support.

Introduction

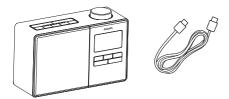

With this portable radio, you can

- Listen to DAB (Digital Audio Broadcasting), FM radio and Bluetooth® music;
- Set two alarms to ring at different times;

What's in the box

Check and identify the contents of your package:

- Main unit
- TYPE-C charging cable
- Quick start guide
- Safey sheet
- Warranty

3 Get started

Always follow the instructions in this chapter in sequence.

Charge the built-in battery

The portable radio is powered by a built-in rechargeable battery.

Note

• A icon 'D' is shown when the battery power is low. Please recharge the built-in battery as soon as possible.

Connect the TYPE-C socket on the portable radio to an outlet (5V=1.5A) by using the provided TYPE-C cable.

- → When the portable radio is being charged, the icon ' 🕫 ' is shown.

Turn on/off or switch to standby

- Press ⁽¹⁾ to turn the unit on.
 → The radio switches to the last selected source.
- Press () to switch the unit to Standby.
 → The time (if set) is displayed.

Note

- Bluetooth device not connected for more than 15 minutes or connected but not playing, the radio switches to standby mode automatically.
- In any mode, press and hold tor 3 seconds to turn off the unit directly. The display screen turns off.

Adjust volume

While listening, rotate **VOLUME** knob to adjust volume.

Adjust display brightness

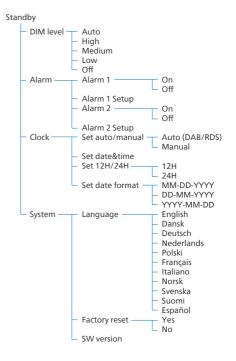

You can select different brightness levels or turn off the display screen.

- 1 Press MENU to access menu.
- 2 Press ►► / ◄◄ to select [DIM level], and then press ENTER to confirm.
- 3 Press ►► / ◄< to select brightness level (Auto, High, Medium, Low) or Off to turn off the display screen, and then press ENTER to confirm.
 - → If [Auto] is selected, it will enter high brightness level. When being idle for 10 seconds, it will enter low brightness level.
 - If [Off] is selected, the display screen will turn off. When pressing the button, it will enter high brightness level. When being idle for 10 seconds, the display screen will turn off.
- 4 Press BACK to exit the menu.

Show menu in standby mode

When the unit is in standby mode, you can access the menu for control options.

- 1 In standby mode, press MENU to access menu.
- 2 Press ►► / ◄< to select a menu option, and then press ENTER to confirm the option or enter the lower-level menu.
 - [DIM level]: adjust backlight settings.
 - [Alarm]: set alarm 1 or 2 on/off and alarm setup.
 - [Clock]: set time synchronization, date/time, select time format and date format.
 - [System]: adjust system settings.
- 3 Repeat Step 2 if any sub-option is available under one option.
- 4 Press BACK to return to the previous menu or press and hold BACK for 3 seconds to exit the menu.

4 Clock setting

Note

• If no button is pressed within 30 seconds, the menu exits.

Automatically set the clock

- 1 Press MENU to access menu.
- 2 Press ►► / ◄< to select [Clock], then press ENTER to confirm.
- 3 Press ►► / ◄◄ to select [Set auto/manual], then press ENTER to confirm.
- 4 Press ►► / ◄◄ to select [Auto(DAB/RDS)], then press ENTER to confirm.
- 5 Press **BACK** to return to the previous menu or press and hold **BACK** for 3 seconds to exit the menu.

In DAB/FM RDS station, the unit can synchronize with time transmitted by DAB/FM RDS station (with CT information) automatically.

Manually set the clock

- 1 Press MENU to access menu.
- 2 Press ►► / ◄◄ to select [Clock], then press ENTER to confirm.
- 3 Press ►► / ◄◄ to select [Set date&time], then press ENTER to confirm.
- 4 Press ►► / ◄◄ to set hour , then press ENTER to confirm.
- 5 Press ►► / ◄◄ to set minute , then press ENTER to confirm.
- 6 Press ►► / ◄◄ to set month , then press ENTER to confirm.
- 7 Press ►► / ◄< to set day , then press ENTER to confirm.

8 Press ►► / ◄< to set year , then press ENTER to confirm.

➡ The time is set.

9 Press **BACK** to return to the previous menu or press and hold **BACK** for 3 seconds to exit the menu.

Set time format

- 1 Press MENU to access menu.
- 2 Press ►► / ◄◄ to select [Clock], then press ENTER to confirm.
- 3 Press ►► / ◄< to select [Set 12H/24H], then press ENTER to confirm.
- 4 Press ►► / ◄< to select [12H] or [24H], then press ENTER to confirm.
- 5 Press **BACK** to return to the previous menu or press and hold **BACK** for 3 seconds to exit the menu.

Set date format

- 1 Press MENU to access menu.
- 2 Press ►► / ◄◄ to select [Clock], then press ENTER to confirm.
- 3 Press ►► / ◄◄ to select [Set date format], then press ENTER to confirm.
- 4 Press ►► / ◄◄ to select [MM-DD-YYYY], [DD-MM-YYYY] or [YYYY-MM-DD] date format, then press ENTER to confirm.
- 5 Press **BACK** to return to the previous menu or press and hold **BACK** for 3 seconds to exit the menu.

5 Alarm setting

Set alarm time

- Note

• Make sure that you have set the clock correctly.

- 1 Press MENU to access menu.
- 2 Press ►► / ◄◄ to select [Alarm], then press ENTER to confirm.
- 3 Press ►► / ◄< to select [Alarm 1 Setup] or [Alarm 2 Setup], then press ENTER to confirm activated the alarm setup mode, the hour will blink.
- 4 Press ►► / ◄◄ to set hour, then press ENTER to confirm, the minute will blink.
- 5 Press ►► / ◄◄ to set minute , then press ENTER to confirm, the alarm repeat cycle will blink.
- 6 Press ►► / ◄< to select alarm repeat cycle (Once, Daily, Weekday or Weekend mode), then press ENTER to confirm, the alarm source will blink.
 - If [Once] is selected as the alarm period, please use ►► / ◄◄ and ENTER to set the alarm date.

- 4 Press BACK to return to the previous menu or press and hold BACK for 3 seconds to exit the menu.

Note

• If no button is pressed within 30 seconds, the menu exits.

8 Listen to Bluetooth® music

Note

- The operational range between the unit and the device is approximately 30 metres (open area).
- Compatibility with all Bluetooth* devices is not guaranteed.
 Any obstacle between the device and the unit can reduce operational range.
- Keep this unit away from other electronic devices that may cause interference.
- The unit will also be disconnected when your device is moved beyond the operational range.

Connect Bluetooth®

- 1 Press **SOURCE** to select Bluetooth mode. → [Disconnected] will blink.
- 2 On your Bluetooth device, switch on Bluetooth, search for [Philips TAR5600] to start connection.
- 3 Select "Philips TAR5600". If connected successfully:
 - → You will hear a prompt sound.
 - \mapsto [Connected] will appear.

Disconnect Bluetooth®

- Switch to another source on the unit;
- Disable the function from your Bluetooth[®] device;
- Press and hold ENTER/SCAN for 3 seconds to disconnect Bluetooth connection.
 If disconnected successfully:
 - → You will hear a prompt sound.

or

- 1 Press MENU to access Bluetooth menu.
- 2 Press ENTER to select [Bluetooth pair].
- 3 Press ►► / ◄< to select [Yes] (disconnect the Bluetooth[®] and enter pairing state), then press ENTER to confirm.

Clear Bluetooth[®] pairing records

- 1 Press MENU to access Bluetooth menu.
- 2 Press ►► / ◄◄ to select [Bluetooth clean], then press ENTER to confirm.
- 3 Press ►► / ◄◄ to select [Yes] to disconnect current connection or select [No] to keep connection, then press ENTER to confirm.
- 4 Press BACK to exit the menu. → [Pairing...] will blink.

Play music

When playing music on your Bluetooth[®] device, you can use this unit to control the music playback.

- Press ENTER to pause/resume playback.
- Press ►► / ◄◄ to skip to a track.
- Rotate VOLUME knob to adjust the volume.

Show menu in Bluetooth® mode

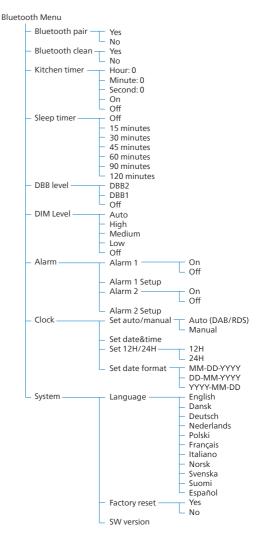

When you listen via Bluetooth[®], you can access the menu for control options.

- 1 Press MENU to access Bluetooth® menu.
- 2 Press ►► / ◄< to select a menu option, and then press ENTER to confirm the option or enter the lower-level menu.
 - [Bluetooth pair]: select it to disconnect Bluetooth connection and enter pairing mode.
 - [Bluetooth clean]: clear Bluetooth pairing records.
 - [Kitchen timer]: set kitchen timer.
 - [Sleep timer]: set sleep timer.
 - [DBB level]: adjust the sound reproduced.
 - [DIM level]: adjust backlight settings
 - [Alarm]: set alarm on/off and alarm setup.
 - [Clock]: set time synchronization, date/time, select time format and date format.
 - [System]: adjust system settings.
- 3 Repeat Step 2 if any sub-option is available under one option.
- 4 Press **BACK** to return to the previous menu or press and hold **BACK** for 3 seconds to exit the menu.

Note

If no button is pressed within 30 seconds, the menu exits.

9 Kitchen timer setting

• The unit exits menu setting when idle for 30 seconds.

Set kitchen timer

Note

- 1 Press 🕛 to turn on the unit.
- 2 Press MENU to access menu.
- 3 Press ►► / ◄< to select [Kitchen timer], then press ENTER to confirm.
 - → The hour digits blink.

Tuning Range(FM)	87.5-108 MHz
Tuning Range(DAB)	174-240 MHz (Band III)
Tuning Grid	50 KHz
Sensitivity	
- Mono, 26 dB S/N Ratio	<22 dBf
Total Harmonic Distortion	<10%
Signal to Noise Ratio	>50 dBA
Plusteeth	

V5.3
2.4 Ghz~2.48 GHz
5.37 dBm
30m(open area)

General information	
USB port	5.0V 1.5A
Lithium battery	3.65V/2600mAh
Dimensions (W x H x D)	222x147x96 mm
Weight (Main unit)	877g

12 Troubleshooting

Warning

• Never remove the casing of the product.

To keep the warranty valid, never try to repair the device yourself. If you encounter problems when using this device, check the following points before requesting service. If the problem remains unsolved, go to the Philips webpage www.philips.com/support. When you contact Philips, make sure that the device is nearby and the model number and serial number are available.

No power

- Make sure the portable radio is fully charged.
- Make sure the USB socket of the portable radio is properly connected.

No sound

- Adjust the volume on this portable radio.
- Adjust the volume on the connected device.
- Make sure that your Bluetooth device is within the operational range.

No response from the unit

• Restart the portable radio.

Poor radio reception

- Keep the portable radio away from other electronic devices to avoid radio interference.
- Fully extend and adjust the position of the antenna.

Alarm does not work

Set the clock/alarm correctly.

Clock/alarm setting erased

- Reset the clock/alarm.
- Replace the backup batteries.

The audio quality is poor after connection with a Bluetooth-enabled device

 The Bluetooth reception is poor. Move the device closer to this speaker or remove any obstacle between them.

Fail to find [Philips TAR5600] on your Bluetooth device for pairing

 Press and hold ENTER/SCAN for 3 seconds to enter Bluetooth pairing mode, and then try again.

Cannot connect with your Bluetooth device

- The Bluetooth function of your device is not enabled. Refer to the user manual of your device to find out how to enable the function.
- This portable radio is not in pairing mode.
- This portable radio is already connected to another Bluetooth-enabled device.
- Disconnect and try again.

Battery cannot be charged properly or the battery drains too quickly

- Replace the battery.
- 1 Open the battery compartment lid at the bottom of the unit, and remove the original battery from the battery compartment.

2 Put in a battery of the same type (not supplied).

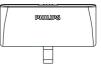

- 3 Close the battery compartment lid.
- Rechargeable Li-ion Battery Specification: 1INR19/66

Model: TACR5001BA

Nominal Capacity: 3.65V, 2600mAh, 9.49Wh

Max Charge Voltage: 4.2V

TP Vision Europe B.V. Prins Bernhardplein200, 1097 JB Amsterdam, The Netherlands.
