- IPX4 splash and sweat resistant

From favorite playlist to catch-up call

- Solid Bluetooth multipoint connection
- Connect to two Bluetooth devices at the same time
- Warm, natural sound. Philips sound signature

True wireless headphones TAT3509BL/97

Highlights

Noise Canceling Pro

Adaptive noise cancellation quickly reacts to your surroundings to suppress external noise, including wind, in real time. If you want to hear whats going on around you, Awareness Mode lets outside sounds back in. Quick Awareness enhances voices, so you can have a conversation without removing your headphones.

Great sound. Dynamic Bass

These true wireless earbuds sound great, and you wont need to turn up the volume to get the best out of their 10 mm drivers. Activate

Dynamic Bass via the left earbud, or the Philips

Headphones app, and you can enjoy the full power of your favorite basslines even if listening quietly.

Pocket-sized charging case

Head out with the small charging case in your pocket and your earbuds will always be ready for you. Theyll stay protected and charging when youre not using them, and mono mode means you can use either earbud while the other one charges.

Up to 24 hrs (8+16, ANC off)

With noise canceling on, you get up to 6 hours play time from a full charge and an extra 12 hours from the case (with noise canceling off, you get 8 hours and an extra 16 from the case). For a quick boost, charge the earbuds for 15 minutes to get an extra hour. The case itself can be recharged via USB-C.

Clear calls

Your voice will come through clearly when youre on a call. A dedicated mic picks up the sound of your voice while a noise reduction algorithm quietens some of the background noise from the world around you.

On-ear touch controls

There are handy on-ear touch controls for noise canceling, music playback, volume, and calls. Prefer to use the left or right earbud? You can customize how these controls are set up via the Philips Headphones companion app.

Philips Headphones app

As well as customizing the touch controls, our Headphones app lets you turn adaptive noise cancellation off and take control of the levels yourself. You can also use the app to keep your earbuds firmware up to date or manage connected devices—and there's an in-app equalizer too.

IPX4 splash/sweat resistant

With an IPX4 rating, these true wireless earbuds are fully splash resistant. They wont mind a little sweat and you dont need to worry about getting caught in the rain.

Solid Bluetooth connection

Advanced Bluetooth connectivity gives you a more stable connection for seamless streaming, and you can connect to two Bluetooth devices (iOS or Android) at the same time. Enjoy that playlist or listen uninterrupted to your favorite podcast without annoying dips in the sound.

Philips sound signature

Music to podcasts, youll love what you hear! These true wireless earbuds feature large drivers, tuned to the Philips sound signature. Whatever youre into, youll enjoy a warm, natural sound with deep bass.
