Clean water right from the tap

Remove residual chlorine and odor

Compact on-tap purifier using high quality granular activated carbon to effectively removes residual chlorine and odors, ensuring clean and tasty water for you and your family.

Cleaner water

- Removes residual chlorine and odors effectively

Made easy

- Buckle type release and lock filter changing mechanism
- Water control system with optional water outlet modes
- Quick Fit tap adapters for easy installation on your tap
- Simply discard the one-piece filter after use

Highlights

Refreshing and tasty water

Granular activated carbon filter can remove residual chlorine by more than 99%*, and adsorbs odors effectively.

Filters are easily changed

Eject the used filter by pushing the switch and simply insert the new one.

Ingenuity design

A simple rotation of the water selection lever switches the water flow from regular, unfiltered tap water (stream or spray) to effectively treated filtered water.

Quick Fit tap adapters

This on-tap purifier comes with a few tailor-made Quick Fit tap adapters, which fit most taps and help you to easily install the filter.

One-piece disposable filter

Simply discard the one-piece filter when it reaches the end of lifetime. The one-piece design prevents secondary pollution.
