# Highlights

**Dynamic microphone**

Provide a wide frequency response, make it ideal for both vocal and instrumental performance.

**Enhanced EQ setting**

Provide a low-frequency boost and add clarity and penetration at high frequency.

**Adjustable vocal sensitivity control**

Allow effortless matching of vocal volume to background music at the microphone.

**2.4Ghz transmission**

Allow up to 30 meter transmit distance in sight.

**Rechargeable receiver**

The receiver is rechargeable by any USB charger. (charger not included)

**Compatible with all party speaker and audio set**

6.3mm to 3.5mm audio adaptor is included that makes it suitable for all audio-in jack of speakers and audio sets.

**Full day play time**

Microphone is operated by 2 AA batteries (not included) which allow over 12 hours of play time.
