6000 series

Intuitive fingerprint unlock

Mute by "0" button

Safehandle function

With 60mm door backset

DDL603LKABW

Unlock new joy in life

Wi-Fi connection, smart life under control

Wi-Fi-enabled DDL603E-5HWS supports you to distribute one-time PIN code and check the access records remotely, etc. With the fingerprint sensor integrated into the handle, unlocking is conveniently in one grip, adding more fun to your life.

Smart life locked with excellence
- Allow one grip to unlock

Caring designs comes with high quality of life
- Voice prompt makes operation easier
- Leave a quiet place for the family
- Ensure home secure and eliminate risk while away

Highlights

Intuitive fingerprint

Adopted the integrated handle design with an FPC semiconductor fingerprint, the fingerprint recognition speed of Philips DDL603E-5HWS is less than 0.5 s. Pressing down the handle allows one grip to unlock and brings you a fast and intuitive opening experience.

Mute by "0" button

The "0" button is used both as a digit button and a mute button. Long press the "0" button for 2 seconds to enable the mute mode no matter you are in or out. Without disturbing your family at night, the thoughtful design allows you to get back home in a quiet manner, which leaves a quiet place for the family.

Safehandle function

You can enable the safehandle feature before leaving home. After the door is locked, the indoor handle will be frozen so that nobody could open the door by pressing down the inside handle. This feature can prevent children and pets from accidentally opening the door, thus eliminating security risks.

Low battery level alert

When the door lock's battery level is less than 20%, it will trigger an alert. The Philips DDL603E-5HWS has an emergency power supply Micro-USB interface, which allows charging by the output voltage of 5V power bank. The operation is simple, and the working state of the smart lock is fully assured, allowing you to use it with peace of mind every day.

Specifications

Design & Appearance
Color: Obsidian black
Handle: Lever handle
Fingerprint Sensor: Semiconductor

Access Solution
Fingerprint
Password/PIN Code
Card/Key Tag
Mechanical Key

Lock Capacity
Card/Key Tag: Up to 100
