- Designed for flexible installations

# Highlights

## Full HD resolution

Bring your entertainment to life with Full HD resolution — enjoy razor-sharp images, deep contrast and crystal-clear text for an unforgettable viewing experience with 4000 Lumens.

## Versatile connectivity

The ProPix 850 features dual HDMI inputs, ensuring seamless integration with legacy systems commonly found in educational institutions and established corporate environments. Also includes a RS232 ports for professional AV control systems, USB connectivity and a 3.5 mm audio output for external sound solutions.

## Powerful integrated sound system

Immerse yourself in outstanding sound quality with the audio system, featuring two speakers for a truly exceptional audio experience. Need a bigger sound? The 3.5 mm jack output is there to connect your earphones or external speakers.

## Designed for flexible installations

Engineered for versatile installation scenarios, projecting impressive images from 70" up to 150" diagonal. With a throw ratio of 1.49:1, create a professional 120" display from a distance of just 4 metres. The lightweight design of 2.5 kg makes it easily portable, while support for multiple aspect ratios (4:3/16:9/16:10/Native) ensures compatibility with various content formats.

## Philips UHP lamp

This revolutionary lamp technology transformed the projection industry through its innovative high-pressure operation, enabling exceptional brightness and efficiency in a compact form factor.

## New standards for the Pro

The unique design of the UHP lamps results in superior stability and longevity compared to conventional modern lamp technologies. This innovative approach sets new standards for projection performance, making it the preferred choice for professional installations worldwide.
