

PHILIPS

Soundbar 2.1

2.1 Ch, wireless subwoofer

320 W max. HDMI eARC

DTS Virtual:X

Dolby Atmos®

TAB8200

Low profile. Room-filling sound.

With its immersive audio technology and ultra-compact wireless subwoofer, this super-slim soundbar will fill your room—without taking over the room. It partners perfectly with Ambilight TVs to dial up the thrills of whatever you're watching.

Immersive sound for everything you love

- Dolby Atmos. Immersive cinematic sound at home
- DTS Virtual:X for immersive 3D sound in any room
- Four EQ sound modes and dialogue enhancement

Music and movies

- Control your soundbar and TV with a single remote
- Bluetooth 5.3 with LE Audio support
- Connect your favourite sources for bigger sound
- HDMI eARC, optical connection, AUX-in, USB
- Philips Home Entertainment app

Philips 2.1 soundbar. Ambilight TV Surround.

- Magnetic attachment. Seamless fit, powerful sound
- 2.1 channels. Wireless subwoofer for deeper bass
- Room-filling sound. 320 W max
- Ultra-slim design, perfect for low-slung Ambilight TVs

Highlights

Magnetic Fit for Philips TV

Experience seamless elegance with our magnetically designed soundbar—perfectly aligned with Philips TV. Its sleek, minimalist form blends effortlessly into your space, while the magnetic attachment ensures a flawless, gap-free fit. Premium sound, refined design—harmony in every detail.

2.1 channels with subwoofer

2.1 channels and immersive audio technology bring new levels of sound, while the ultra-compact wireless subwoofer adds impressive weight to effects and music. Four EQ modes let you pick a sound style to suit what you're watching—and voices get clearer in any mode if you activate Dialogue Enhancement.

Ultra-slim design

This soundbar has a profile of just 37 mm: it will even fit under Ambilight TVs with lower stands, and the detachable wall brackets (included) give you multiple options. The ultra-compact, powerful subwoofer is easy to conceal and you can position it vertically or horizontally.

DTS Virtual:X

Compatibility with DTS Virtual:X transforms your TV sound, bringing you a virtual 3D sound experience no matter what's on screen! You don't need extra speakers, and it works in any room: turn it on via the soundbar's remote control or the Philips Home Entertainment app.

Dolby Atmos®

Dolby Atmos places sound effects in the space around and above you, creating three-dimensional spatial sound that pulls you in

deeper. Activate it via the surround-sound button on the soundbar's remote or through the Philips Home Entertainment app. You'll feel like you're right in the middle of the action.

HDMI eARC. Philips EasyLINK

You can adjust the volume on your soundbar using your TV remote. If you have a Philips Ambilight TV, the EasyLINK function lets you use the remote to switch between the soundbar's preset EQ modes, adjust bass and treble—and more.

Easy connections

Compatibility with Bluetooth LE Audio gives you a steadier connection, better sound and less lag if you're streaming playlists from a smart device that is also compatible with Bluetooth LE Audio. You can also connect audio sources to the soundbar via audio-in, USB or optical input.

Philips Home Entertainment app

Download the app and you can use your smart device to switch between the EQ sound modes, select source, activate virtual surround sound and more.
