Up to 180% more effective for healthier gums*

An effortless, thorough clean

Enjoy an effortless, thorough clean between your teeth and improve your gum health. Our Quad Stream technology helps you cover more area with less effort, while Pulse Wave technology gently guides you from tooth to tooth. Easy.

An effortless clean with advanced technology

- Quadstream technology: removes plaque from below the gumline
- Easy to fill 550ml reservoir
- Quad Stream technology for faster, more effective flossing
- Standard nozzle for a regular clean
- Pulse Wave technology guides from tooth to tooth
- Whisper quiet for great results without disturbing others
- Quad Stream nozzle for maximum coverage

Customize easily to your needs

- 2 flossing modes, 10 intensities

Power Flosser 3000

Oral Irrigator - Trial Unit NOT FOR RESALE

HX3704/20

Highlights

Covers more area, effortlessly

X-shaped water streams cover more surface area for a faster, deeper clean versus manual floss. Effortlessly.

Cleans from below the gumline

The Quadstream technology removes up to 99% of plaque from 6mm deep periodontal pockets.

Guides from tooth to tooth

Gentle pulses of water guide you from tooth-to-tooth so that you don't miss a spot.

Whisper quiet design

Engineered for a discreet clean, so you get great results without disturbing others.

2 modes, 10 intensities

Enjoy a clean that's tailored to your needs. Clean mode uses a continuous flow of water for a great everyday clean, while Deep Clean uses distinct pulses for a more thorough clean. Whenever you need, adjust the intensity to your ideal comfort level.

F1 Standard nozzle

Use the standard nozzle for a regular clean. It uses a single stream of water to remove debris and clean thoroughly between your teeth.

F3 Quad Stream nozzle

For maximum coverage and an extra thorough clean, use the Quad Stream nozzle to concentrate water into four wide streams between teeth and along the gum line. The soft rubber guide is gentle on gums and every nozzle simply clicks on and off.

550ml reservoir

The 550ml reservoir holds enough water for one cleaning. To refill simply lift out, fill and click back in.
