

Specification list

In case your vehicle is not listed, no specific installation instructions are known.

In the unlikely event that your vehicle displays an error message in the on-board computer and is not yet on the specification list, we have also developed a solution for the Philips Ultinon Pro6000 Boost H11 LEDr: the H11 LED CANbus adapter. If you are unsure about the applicability of the LED replacement light source, please contact professional repair workshops. If it is not used in accordance with the installation and operating instructions, malfunctions may occur.

Car maker	Model	Type	Year of production	Light application	Headlamp approval number	Specific instructions
