- Sonicare Fluid Action
- Proven to deliver effective oral care

S2 Sensitive

2-pack brush heads

HX6052/77

Highlights

Ultra-soft bristles

Thorough cleaning can still be gentle on sensitive teeth and gums. This brush head features a unique design with long, thin, ultra-soft bristles that keep every brush stroke kind.

Say goodbye to plaque

With more than 3,000 densely packed bristles, this brush head helps you remove up to 10x more plaque than a manual toothbrush – even in hard-to-reach areas.

Click-on design

This brush head is compatible with all Philips Sonicare electric toothbrushes.*** Simply click it on or off for easy replacement and cleaning.

Sonicare Fluid Action

Philips Sonicare toothbrushes gently yet effectively clean and care for your teeth and gums with up to 62,000 bristle movements. Sonicare Fluid Action supports the bristles to clean by driving fluid deep between teeth and along the gumline.

Clinically tested

All Philips Sonicare brush heads are meticulously designed and clinically tested. So you can be sure they meet the highest standard in quality, safety and performance.

Replacement reminders

Did you know brush heads become less effective after three months? Dental professionals recommend changing your brush head regularly,

that's why Philips Sonicare toothbrushes have BrushSync technology. It tracks how often and how hard you brush, then reminds you to replace your brush head once it's time for a new one.

Bio-based plastic

We are working to reduce our use of fossil-fuel based plastic in our products. That's why 70% of the plastic in this brush head is bio-based.**

Paper-based packaging

All of our brush heads come in paper-based packaging which can be recycled where facilities are available.
