Car-headlight bulb

Highlights

Accredited by automotive experts

Our Philips Ultinon Pro6000 Standard H7-LED bulb has undergone extensive testing by independent experts to confirm its high performance and compliance with road-traffic regulations. It has met the licensing standards in Germany and many countries where road homologation is required*. Consequently, Philips Ultinon Pro6000 LED bulbs can safely replace halogen bulbs for a wide range of vehicle models, ensuring the safety of all road users. Experience the outstanding performance of LED light and enjoy peace of mind with the new Philips Ultinon Pro6000 Standard LED bulb.

Wide compatibility

The Philips Ultinon Pro6000 Standard H7-LED bulb works for both high- and low-beam functions. It has been tested and approved for a wide range of vehicles including cars, motorhomes, vans and motorcycles. We regularly review and update our vehicle-compatibility list to ensure that we meet your needs. To find out if the Philips Ultinon Pro6000 is suitable for your vehicle, visit our dedicated site at [Philips.com/roadlegalLED](https://philips.com/roadlegalLED).

Enhanced brightness

The Philips Ultinon Pro6000 Standard H7-LED bulb improves driver comfort and visibility. This bulb stands out with impressive brightness and accurate colours. It combines the best LED technology with exclusive automotive components, resulting in a remarkable +220% homogeneous brightness**. This guarantees clearer vision on the road. Its 5800 K colour spectrum enhances the view of the road and signs ahead, making it easier and faster to spot obstacles. Why settle for less visibility when you can use the Philips Ultinon Pro6000 Standard?

Compliant with automotive standards

We understand it's vital that our products operate smoothly with the complex electronics of today's sophisticated vehicles. That's why our Philips Ultinon Pro6000 Standard H7-LED bulb has been meticulously designed to industry guidelines and will integrate seamlessly into your vehicle's lighting system. It has built-in protection from electromagnetic interference (EMI), offering an easy-to-use retrofit lighting solution. Upgrade your headlights to the highest automotive quality and experience night driving like never before!

Long-lasting performance

The Philips Ultinon Pro6000 Standard LED has undergone extensive testing and quality control to ensure its long-term durability and performance. Designed specifically to perform in real-world conditions, the Philips Ultinon Pro6000 Standard LED bulb offers drivers four times the operating life of equivalent halogen bulbs, delivering a consistent and homogeneous light beam throughout its lifespan. The Philips Ultinon Pro6000 Standard LED range is covered by Philips warranty policy***.

Philips accessories for you

Each vehicle model is unique, and while most don't need additional accessories when converting to retrofit LED lights, some do. The Philips Ultinon Pro6000 Standard H7-LED comes with several interchangeable Philips accessories. From vehicle-specific ring types to exclusive 3-in-1 CANbus adapters, we have everything you need to ensure the best lighting experience possible. To find out if your vehicle model requires a Philips accessory, refer to our online compatibility list at [Philips.com/roadlegalLED](https://philips.com/roadlegalLED).*
