Highlights

Natural latch on

The wide breast-shaped teat promotes a natural latch-on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Ultra soft teat

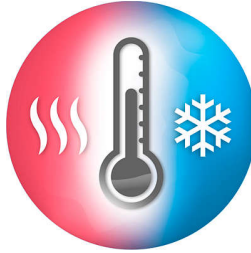

The teat has an ultra soft texture, designed to mimic the feel of the breast.

Flexible spiral design

Flexible spiral design, combined with our unique comfort petals to create a flexible teat, allowing for a more natural feed without teat collapse.

Heat resistance

The Natural glass bottle is heat- and thermal shock-resistant. It can therefore be safely stored in the fridge and warmed, and is also suitable for sterilisation.

Pharmaceutical-grade glass

Premium quality borosilicate glass to ensure the highest quality for ultimate purity.

Anti-colic valve technology

Our unique anti-colic valve technology was designed to reduce colic and discomfort, by venting air away from your baby's tummy.

Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

Orthodontic Soother

Flat, drop-shaped symmetrical teats respect the natural development of your baby's palate, teeth and gums, even if the soother ends up upside-down in the mouth.

Curved brush head

Specially curved brush head and moulded handle-tip reach the corners of all wide neck bottles, teats and feeding products for thorough cleaning.

Formula Dispenser

The Philips Avent milk powder dispenser holds 3 pre-measured doses of milk powder and is ideal for travel.
