Always ready for work and play

- Up to 60 hours play time (45 with noise canceling on)
- Clear calls. They'll hear what you're saying
- Solid Bluetooth multipoint connection

Rich natural sound and handy companion app

- Philips Headphones app. Personalize settings and controls
- Warm, detailed, natural. Philips sound signature
- A quick 15-minute charge provides 3 hours of playback

Highlights

Noise Canceling Pro

Adaptive noise cancellation quickly reacts to your surroundings to suppress external noise, including wind, in real time. If you want to hear what's going on around you, Awareness Mode lets outside sounds back in. Quick Awareness enhances voices, so you can have a conversation without removing your headphones.

Lightweight and comfy

The round ear-cup mounts and sleek frame give these over-ear headphones a distinctive sense of style. Memory foam ear-cup cushions keep you comfortable through long listening sessions—and the ear cups fold flat and swivel inward for easy storage in your pocket or bag.

Great sound. Dynamic Bass

You'll enjoy rich sound from the 40 mm drivers, and good passive noise isolation from the over-ear fit. To enjoy the full power of your favorite

basslines without turning up the volume, simply activate Dynamic Bass via the multifunction button or the Philips Headphones app.

Up to 60 hrs (with ANC off)

You get well over a day of listening even if you have noise cancellation turned on. A full charge takes just 2 hours via USB-C, and a quick 15-minute charge gives you an extra 3 hours. You can also use a USB-C cable to plug into any smart device with a USB-C port.

Clear calls

Your voice will come through clearly when you're on a call. A dedicated mic picks up the sound of your voice while a noise-reduction algorithm quietens some of the background noise from the world around you.

Solid Bluetooth connection

Advanced Bluetooth connectivity gives you a more stable connection for seamless streaming, and you can connect to two Bluetooth devices

(iOS or Android) at the same time. Enjoy that playlist or listen uninterrupted to your favorite podcast without annoying dips in the sound.

Philips Headphones app

Ever forget to turn off your headphones? Set a timer on our companion app and they'll power down automatically. The app also lets you manage connected devices or turn adaptive noise cancellation off and take control of the levels yourself. Plus, there's a range of preset sound styles: 'Voice' is ideal for podcasts!

Philips sound signature

Music to podcasts, these wireless headphones make the most of the sounds you love! You'll enjoy warm, detailed sound with rich bass from the large drivers, which are tuned to the Philips sound signature.

Specifications

Sound

Acoustic system: Closed
Frequency range: 7 - 40,000 Hz
Impedance: 32 Ohm
Sensitivity: 96 dB (1k Hz)
Speaker diameter: 40 mm
