## Highlights

### 360D Precision Flex System

Now our 360D Precision Flex System shaving heads are 20% smaller. This gives you a skin-level close shave – even in those difficult areas that are harder to shave, like your neck, under your nose and chin. We also improved our suspension system by making the contour angle 10% greater. Now it follows every contour of your face even more closely, so you get even better skin contact.

### Lift&Cut System in all directions

Because facial hair grows in different directions, we combined the famous Philips rotary system with our patented Lift & Cut technology. While the rotary heads are capturing hair from all directions, Lift & Cut technology is gently lifting hair by the roots to cut it at skin level without the blades touching your skin. For up to 0.00mm smooth closeness. That's precision at its best, for a great morning shave that lasts until the evening.\*\*

### Skin-stretching patterns

The shaving heads with specially designed patterns automatically stretch your skin smooth before the blades cut. For ultimate closeness and super smooth results.

### Hydro SkinGlide Coating

Our best protective coating lies between the shaver heads and your skin. Made of up to 500,000 microtech beads with hydrophilic properties per square centimeter, creating smoother gliding on skin by 50%\*\*\* for maximum skin comfort.

### Up to 5-year warranty\*\*\*\*\*

Our shavers are engineered for excellence and come with 5-Year Warranty so you can enjoy ultimate reliability and performance. Shave after shave.

### Power Adapt sensor

The electric shaver has intelligent facial-hair sensing technology that reads hair density 500 times per second. The Power Adapt Sensor auto-adapts the cutting power for an effortless and gentle shave.

### Top-spin digital motor

Maximum high-speed rotations for maximum efficiency. Our most advanced Top Spin Digital Motor ensures a precise shave for any facial contour or hair density.

### Personal Comfort settings

Adjust the speed of your shaver to low, medium or high speed with the Personal Comfort Settings. Personalize your shaving routine to your own skin and preferences.

# Highlights

### Cable-free Quick Clean Pod

Powerful cleaning pod thoroughly cleans and lubricates your shaver in just 1 minute, keeping it performing at its best for longer. The pod is 10x more effective than cleaning with water\*\*\*\*. It is the world's smallest cleaning pod, so you can store it easily and use it anywhere.

### 1 hour charge

Charge the shaver in one hour. The powerful, lithium-ion battery keeps the shaver going just as strong, for years.

### Shave wet or dry

Adapt your shaving routine to your needs. With Wet & Dry, you can go for a comfortable dry shave or a refreshing wet shave. You can shave with gel or foam even under the shower.

### Precision trimmer attachment

Skin-friendly and easy to use, give your mustache and sideburns extra definition with the click-on precision trimmer.

### Sustainability

At Philips, we drive sustainability in all aspects of product creation. All our 9000 Prestige shavers are made with high-quality, long-lasting components and recyclable packaging, while our blades are made from durable space-grade steel and produced in a factory that uses 100% renewable energy.

### Nose trimmer attachment

Removes nose and ear hair. Both the ProtecTrim technology and the specially-designed angle of the trimmer ensure an easy and comfortable trim.

### Digital display

The intuitive display shows relevant information, enabling you to get the best performance out of your shaver: - 3 digit (%) battery indicator - Cleaning Indicator - Battery Low Indicator - Replacement Head Indicator - Travel Lock Indicator

### 60 minutes of cordless shaving

This advanced charging system gives you two convenient options: 60 minutes of running time after a full charge, or a quick charge for one shave.

### Premium travel case

The S9000 Prestige Shaver comes neatly packed in a premium travel case to store all your click-on accessories. Ideal for travel or keeping it safe when it's not in use.
