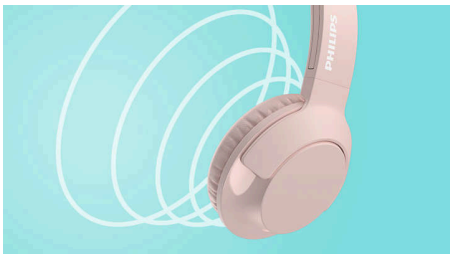
- Stylish matte colorways

Everyday ease

- Bluetooth® multipoint connectivity
- Clear calls. They'll hear what you're saying
- Sleek portable adjustable design
- Convenient multi-function button on right ear cup

Highlights

BASS+ sound signature



Music to podcasts, these wireless headphones make the most of the sounds you love! You'll enjoy warm, rich sound with punchy bass from the drivers, which are tuned to the Philips sound signature.

Lightweight and comfy

These on-ear headphones are primed for everyday comfort. The soft PU cushion is so light you'll barely feel it, and the headband's ear cups can be adjustable so they feel just right. Each ear cup is padded with memory foam: the more you wear them, the more you'll love them.

Up to 60 hours play time

With up to 60 hours of play time, these wireless headphones will see you through plenty of playlists. If you need a quick boost, charging these on-ear headphones for just 15 minutes will get you an extra 6 hours of play time.

Bluetooth® 6.0

Bluetooth® 6.0 brings you a steadier connection for seamless, high-quality streaming, and multipoint connectivity lets you connect to two Bluetooth® devices at once. Enjoy that playlist or listen uninterrupted to your favorite podcast without annoying dips in the sound.

Clear calls

Your voice will come through clearly when you're on a call. A dedicated mic picks up the sound of your voice while a noise-reduction algorithm quietens some of the background noise from the world around you.

Adjustable design

Bring them with you! With their stylish matte colorways and adjustable design, there's nowhere you can't go with these on-ear wireless headphones. The ear cups feature a flat-fold design to ensure a great fit.

Convenient multi-function button

A handy multi-function button on the right ear cup lets you manage calls or control playback and volume. Button controls on the right ear shell enable you to control music and calls with a press.
