Highlights

Sonicare technology

Gentle pulsing action reaches deep between teeth and along the gum line. So kids get the best possible clean while they are still learning to brush.

Brush head designed for kids

The brush heads are specially designed to help kids get a thorough clean while they learn to brush. One compact brush head is included. Standard size heads sold separately.

Create your own personal pet

Special Design a Pet edition includes reusable stickers so kids can turn their toothbrush into new animal characters anytime. Let's make brushing a fun part of their day!

SmarTimer and KidPacer

Coach kids to build healthy habits. SmarTimer keeps them brushing for a full 2 minutes and KidPacer makes sure they switch to a new area of the mouth every 30 seconds.

2 intensity settings

Developing teeth need extra protection. Choose between Gentle and Extra Gentle settings, with a rubberized brush head for a comfortable clean.

Free Sonicare for Kids app

Build healthy habits to last a lifetime. Our free Sonicare for Kids app supports kids as they brush twice a day for the full dentist-recommended 2 minutes and have fun doing it!

Slim travel case

Our premium travel case lets you store your toothbrush hygienically, while our compact USB charging base keeps you topped up when you are on the go. You do get two weeks of regular use from a single full charge, but the charger's just the ticket for longer trips.
