- Full HD 1080p images
- Bedside lamp

### **Unlimited screening options**

- Flexible design
- Multiple image correction options

### **Wireless and sound**

- Integrated speaker sound system
- Wireless screen mirroring

# Highlights

## Full HD 1080p images

Watch films and more in Native Full HD 1080p high-definition sharpness, full of the fine detail that can be lost at lower resolutions. The picture remains lifelike and text is crystal-clear when displayed on a wall, ceiling and more!

## Flexible design

Break free from traditional viewing with its innovative 180 degree rotating stand. This feature invites you to redefine the boundaries of your entertainment from hosting an intimate film night under a starry ceiling in your bedroom to transforming your wall into a cinema.

## Integrated speaker sound system

No need for extra sound systems thanks to the built-in omnidirectional speakers with unrivalled performance, even in such a small package.

## Bedside lamp

Elevate your ambiance with the built-in LED strip, which effortlessly transforms the device into a stylish, warm white bedside lamp. A 180 degree

rotation and a touch of brightness transform your space, delivering soothing illumination even when the projector takes a rest. Your personal cinema and an elegant lamp — all in one.

## Wireless screen mirroring

Connect your mobile devices such as tablets, smartphones or even computers wirelessly to mirror and share your contents. With the Dual band (2.4 and 5GHz), your connection will get even more stable and faster for smoother playback.

## Multiple image correction options

Auto horizontal and vertical keystone and 4 corner correction automatically help eliminate crooked, distorted images for a perfectly proportioned picture even if the device is not straight in front of the wall. The auto-focus technology and digital zoom allow you to fine-tune pictures to your needs and place your projector at any distance.
