NPX250

Big-Screen Brilliance, Anywhere You Go!

The Philips NeoPix 250 Smart is designed to redefine entertainment, featuring a 180-degree rotating stand that lets you project on any flat surface effortlessly.

Functions and content

- Advanced Picture Correction
- Google TV streaming device included

A wireless environment

- Wi-Fi screen mirroring
- Wireless Sound

Brilliant Image

- True Full HD 1080p
- Advanced LED Light Source

Highlights

True Full HD 1080p

Watch movies and more in Native Full HD 1080p high-definition sharpness, full of the fine detail that can be lost at lower resolutions. The picture remains lifelike and text is crystal-clear when displayed on wall, ceiling... and more!

Advanced LED Light Source

The high-quality LED light system delivers rich, vivid colors and lasts up to 30,000 hours. With an average use of 4 hours per day, it will last for 20 years! Energy consumption is also much lower than a regular lamp projector, meaning you get a bigger screen and a fully immersive cinema experience, all from an eco-friendly device!

Wi-Fi screen mirroring

Connect your mobile devices wirelessly to mirror and share your local content on tablets, smartphones, or even computers. Videos on your phones? No worries just send it through Wi-Fi! (iOS, Android, Mac, and PC).

Advanced Picture Correction

Auto vertical keystones and 4 corner correction automatically help eliminate crooked, distorted images for a perfectly proportioned picture even if the device is not straight in front of the wall. The auto-focus technology and digital zoom allow you to fine-tune pictures to your needs and place your projector at any distance.

Wireless Sound

Have wireless speakers, mouse, keyboard, or other remote controls? No worries, thanks to its Bluetooth functionality, you can easily connect to any of these accessories.

Google TV streaming device included

Google TV brings together all your favorite streaming apps and personalized recommendations in one intuitive platform. With a user-friendly interface, Google TV curates shows, movies, and videos based on your viewing habits, suggesting options from services like Netflix, Hulu, Disney+, and more, so you can discover new favorites without endless scrolling.
