## Over-ear wireless headphones

Noise Cancelling Pro

Lightweight over-ear headphones

Natural sound. Dynamic Bass

Up to 60 hours of play time

TAH7508BK

## Immerse freely

Work or play, flow through your days with these wireless noise-cancelling headphones! Adaptive noise cancellation and a comfy over-ear fit keep you immersed. You get rich, detailed sound, and there's a low-lag setting for games and films.

### **Over-ear wireless headphones. Immerse in style**

- Immerse with Noise Cancelling Pro
- Light, comfy, foldable—and stylish!
- Great sound even at low volume with Dynamic Bass

### **Always ready for work and play**

- Up to 60 hours of play time (45 with noise cancelling on)
- Clear calls. They'll hear what you're saying
- Solid Bluetooth multipoint connection

### **Rich natural sound and handy companion app**

- Philips Headphones app. Personalise settings and controls
- Warm, detailed, natural. Philips sound signature
- A quick 15 minute charge provides 3 hours of playback

# Highlights

## Noise Cancelling Pro

Adaptive noise cancellation quickly reacts to your surroundings to suppress external noise, including wind, in real time. If you want to hear what's going on around you, Awareness Mode lets outside sounds back in. Quick Awareness enhances voices, so you can have a conversation without removing your headphones.

## Lightweight and comfy

The round earcup mounts and sleek frame give these over-ear headphones a distinctive sense of style. Memory foam earcup cushions keep you comfortable through long listening sessions—and the earcups fold flat and swivel inwards for easy storage in your pocket or bag.

## Great sound. Dynamic Bass

You'll enjoy rich sound from the 40 mm drivers and good passive noise isolation from the over-ear fit. To enjoy the full power of your favourite

basslines without turning up the volume, simply activate Dynamic Bass via the multifunction button or the Philips Headphones app.

## Up to 60 hrs (with ANC off)

You get well over a day of listening even if you have noise cancellation turned on. A full charge takes just 2 hours via USB-C, and a quick 15 minute charge gives you an extra 3 hours. You can also use a USB-C cable to plug into any smart device with a USB-C port.

## Clear calls

Your voice will come through clearly when you're on a call. A dedicated mic picks up the sound of your voice while a noise-reduction algorithm quietens some of the background noise from the world around you.

## Solid Bluetooth connection

Advanced Bluetooth connectivity gives you a more stable connection for seamless streaming, and you can connect to two Bluetooth devices

(iOS or Android) at the same time. Enjoy that playlist or listen uninterrupted to your favourite podcast without annoying dips in the sound.

## Philips Headphones app

Ever forget to turn off your headphones? Set a timer on our companion app and they'll power down automatically. The app also lets you manage connected devices or turn adaptive noise cancellation off and take control of the levels yourself. Plus, there's a range of preset sound styles: "Voice" is ideal for podcasts!

## Philips sound signature

From music to podcasts, these wireless headphones make the most of the sounds you love! You'll enjoy warm, detailed sound with rich bass from the large drivers, which are tuned to the Philips sound signature.

# Specifications

## Sound

Acoustic system: Closed  
Frequency range: 7 - 40,000 Hz  
Impedance: 32 Ohm  
Sensitivity: 96 dB (1k Hz)
