Ready for you

- Always ready. Pocket-sized charging case and mono mode
- No worries. Up to 24 hours of play time with the case
- Quick charge for 15 minutes and get an extra hour
- Philips Headphones app personalises your audio experience

Highlights

Noise Cancelling

Noise cancelling quietyens external noise, including wind, so you can focus on your tunes or calls. Want to hear more of what's going on around you? Tap an earbud to activate Awareness Mode.

Great sound. Dynamic Bass

These true wireless earbuds sound great, and you won't need to turn up the volume to get the best out of their 8 mm drivers. Activate Dynamic Bass via the left earbud and you can enjoy the full power of your favourite basslines even if listening quietly.

Clear calls

Your voice will come through clearly when you're on a call. One AI mic picks up the sound of your voice while a noise-reduction algorithm quietyens some of the background noise from the world around you.

Secure, comfortable in-ear fit

You get real comfort thanks to soft, interchangeable silicone ear-tip covers. The ear tips insert securely into your ear canal, creating a perfect seal that helps diminish external noise. Plus, the stalks make these earbuds easy to insert and remove.

IPX4 splash/sweat resistant

Never mind the weather, an IPX4 rating means that these earbuds are splash resistant so they don't mind a little rain! Wearing them during a quick workout or on a particularly hot day? They won't mind a little sweat either.

Multipoint and touch controls

Touch controls on the earbud stalks keep things simple, and multipoint lets you connect to two Bluetooth devices (iOS or Android) at the same time.

Pocket-sized charging case

Head out with the small charging case in your pocket and your earbuds will always be ready for you. They'll stay protected and keep charging when you're not using them, and mono mode means that you can use either earbud while the other one charges.

24 hours of play time with case

You get 6 hours of play time from a full charge and an extra 18 hours from the case with noise cancelling off. Pop the earbuds back in the case and they'll recharge fully in 2 hours. If you need a quick boost, just 15 minutes gives you an extra hour. The case can be charged via USB-C.

Philips Headphones app

Download the free Philips Headphones app to fine-tune your sound profile. Choose from preset EQ modes or customise the EQ curve to match your favourite content, listening style and personal preferences.

Specifications

Sound

Acoustic system: Closed
Frequency range: 20–20,000 Hz
