- Shave
- 360 blades
- Wet and dry

Fits on all OneBlade handles

- Fits on all OneBlade handles

Durable stainless steel blade

- Blade that doesn't fade easily

Highlights

Unique OneBlade Technology

The Philips OneBlade is a revolutionary new hybrid styler that can trim, shave and create clean lines and edges, on any length of hair. Its dual protection system — a glide coating combined with rounded tips — makes shaving easier and more comfortable. Its shaving technology features a fast-moving cutter which powers through any length of hair.

Fits on all OneBlade handles

Fits with OneBlade (QP14xx, QP25xx, QP26xx, QP27xx, QP28xx) and OneBlade Pro (QP65xx, QP66xx)

Blade that doesn't fade easily

Durable stainless-steel blade that lasts up to 4 months of use* to keep that fresh feel. When the replacement indicator - eject icon - appears on the blade, the blade performance may no longer be optimal. It is time to consider changing the blade for the best shaving experience

Body comb

Attach the body comb (3 mm) for an easy trim in any direction

Skin protector for body

Attach the skin protector for an extra layer of protection on sensitive areas, armpits and intimate areas.

Shave

Go against the grain and shave off any length of hair easily from your body. OneBlade does not shave as closely as a traditional blade.

Dual-sided blade

Cuts both up and down. Get the perfect lines in seconds with the dual-sided blade, enabling you to see every hair you're cutting.

Wet and dry

OneBlade is waterproof (IPX7), making it easy to clean — just rinse it under the tap. You can also shave in the shower, with or without foam, however you prefer.
