Drinking cup spout

Philips Avent

Drinking cup

Silicone

Compatible with Natural bottle

CP1635/01

Eases transition from bottle to cup

Check for compatibility below

The soft silicone spouts are specially designed with sensitive gums in mind. They're the first step in transitioning your baby from breast or feeding bottle to drinking from a cup.

Soft silicone spout

- Premium basic cup soft spout

Highlights

spout

Our spouts are compatible with Natural and Classic+ bottle ranges (excl. glass bottles), as well as our complete cup range
