PPM3502DB

Bionic "four-hand grabbing and kneading"

Soft and warm touch 4 points deep pressure release

It conforms to the physiological curvature of the cervical spine and provides good support for the neck. Equipped with 4-point deep pressure relief technology to imitate hand grabbing and kneading massage to relieve the fatigue of muscles.

Multiple combinations, users choose freely

- 90min long-lasting battery life
- 2-level hot compress
- 5 modes of bidirectional gripping and kneading

4 deep pressure release area

- 4 in-depth massage area
- Multiple upgrades
- Soft bionic rotating head

humanity design

- Hump curve fitting
- Enjoy wireless anytime
- Soft rebound memory foam
- High elasticity skeleton lock design

Highlights

Fit the curve of the human neck

The surface of the body is undulating with humps, closely fitting the physiological curves of the head, neck, and shoulders, evenly sharing the weight of the head, and gently relieving neck pressure.

Free massage

Built-in 2500mAh recyclable battery, you can press it wherever you want. It can be used for office, home, and self-driving travel.

4 massage area

The massage arm + roller core structure rotates in both directions in positive and negative directions, simulating the manual meat grabbing technique. The four rollers at the end form four pressure points, which concentrate and deeply relieve pressure, such as having four hands massaging the shoulders and neck at the same time.

New upgrade for massage

The massage arms and rollers are pushed together from both sides to the middle to upgrade the massage depth and intensity. Increase the massage area and cover the entire back neck to improve the relaxation effect.

High elasticity material

The inner liner is made of soft and high-resilience memory foam, which is full and soft and reliable, making it feel comfortable for a nap.

Ultra long battery life

The battery life can last up to 90 minutes on a single charge, and the Type-C universal fast charging interface is convenient for charging, allowing you to recharge at any time and massage more freely. "

C-shape design

Built in integrated support frame, C-shaped wrap around the neck, elastic fit without displacement, freeing your hands during massage without delaying you from doing other things at the same time. Lock design ensures that even the slender neck will not loosen or collapse.

Soft massage head design

The design is inspired by the V-face beauty instrument. It doesn't feel rough when it comes into direct contact with the skin. It is soft as a real person's fingertip massage, making it comfortable and addictive.

Hot compress

A separate hot compress area is set up at the back of the neck, with adjustable high and low temperatures, providing a warm and cozy feeling like applying a hot towel, helping to dispel coldness in the neck.

5 modes

The "massage arm" rotates in both directions, combined with multiple levels of strength and hot compress temperature, to create 5 modes of relaxation, vitality, awakening, neck protection, and kneading. The massage techniques are rich and diverse.

Specifications

General specifications

Color: Dark blue

Massage type: Kneading

Gross weight: 1.38kg

Net weight: 0.92kg

Power supply: Built-in battery

Main materials: Elastic fabric

Packaging Dimension(L)*(W)*(H):

260*145*260 mm

Main parameters

Temperature of heating: 40-45 °C

Working voltage: 7.4V

Massage Type: Kneading

Working power: 10W

Battery: 2500mAh

Massage modes: 5

Charging current: 2A

Charging port: USB Type-C

Charging voltage: 5V

Country of origin

Made in: China

Service

Warranty period: 2 years
