Remote intelligent control

Versatile interaction, online security

Dive into the world of real-time remote smart control with Philips DDL610-5HBS-H! Connect it to a gateway, sync it with your phone, and voila! You're all set to remotely unlock and keep an eye on its access logs and alerts from anywhere.

Secure protection, smart embedded

- Say goodbye to the security concerns
- One-tap access for safety and ease

Easy life goes beyond this

- Accessible to all family members
- Meeting diverse language needs
- Considerate family-friendly rest

Smart life "locked" with excellence

- Stay updated on your doorway anytime
- One-tap instant door access
- Smooth entry for your visitors
- One-grip instant recognition

6000 series

Smart lever door lock

DDL610LKAKB/30

Highlights

Remote access via the App*

After linking to the gateway, DDL610-5HBS-H allows you to effortlessly monitor door lock status, access unlocking records, doorbell logs, and view alert records via the mobile app, with no distance limitations.

Remote unlocking

Connect to the gateway, then tap the app's unlock button to remotely access DDL610-5HBS-H. Enjoy the convenience of one-tap door opening, whether you're at home or away.

Remote PIN code sharing

After connecting DDL610-5HBS-H to the gateway, utilize the mobile app to remotely generate and share temporary PIN codes*. Choose from available one-time codes* valid for 6 hours, recurring codes*, or time-limited codes*, tailored to accommodate various visitors with ease.

Semiconductor finger sensor

Featuring a semiconductor fingerprint sensor with recognition speed not more than 0.5s*, as you grip the handle, your finger naturally lands

on the fingerprint scanner. Once recognized successfully, simply pressing down the handle allows for easy door opening, delivering a convenient and swift experience.

Real-time push alerts

Ensuring home security with comprehensive protection, the DDL610-5HBS-H provides security alerts for dismantling and system lockouts. In case of any abnormality, real-time notifications are sent directly to your phone, ensuring constant protection of your home and alleviating security concerns.

Peephole break-in prevention

After locking the door, simply tap once to activate the peephole break-in prevention, immobilizing the indoor handle to prevent unauthorized access through the peephole. This feature also prevents accidental pressing down of the handle by children and pets indoors, ensuring household safety.

5 unlocking methods

Enjoy a variety of unlocking methods including mobile app, fingerprint, PIN code, key tag, and mechanical key – ensuring accessibility for the entire family.

Voice package OTA update

DDL610-5HBS-H comes with Mandarin and English voice navigation as standard. Enhance your device with a third language of your choice through the app's OTA update. Explore languages like Spanish, Portuguese, Indonesian, French, and more.

Mute by "0" button

The "0" key serves both as a digit button and a mute button. Pressing the "0" key for 2 seconds activates mute mode, considerably avoiding disturbing family rest during the night and providing a quiet environment for the family. Its sleek design embodies user-friendliness.
