

Select Edition systems

Revalue pre-owned

Philips Select Edition is a range of pre-owned medical imaging systems that are inspected and tested to Philips original specifications. With a lower initial investment than buying new, our Select Edition systems are economically priced to give you access to Philips' performance within your budget. So, you can revalue how you deliver accessible, sustainable, and equitable care to more people.

Philips Select Edition systems

Economically priced to meet your budget

Inspected and tested to Philips original specifications

Pre-defined configurations with upgrade possibilities¹

Standard 1-year warranty²

Revalue your care potential

The higher the cost of imaging equipment, the greater the barriers to purchase – and the more challenging it is for your patients to access fundamental healthcare. Now you can strike the right balance between price and performance without compromising quality of care.

Revalue pre-owned with Philips Select Edition systems

Revalue what's possible

Select Edition systems help you to balance affordability, clinical capabilities and performance:

- Economically-priced to maximize access to care
- Standard 1-year warranty²
- Uptime and support options available for remaining service life

Revalue what's used

All Philips pre-owned equipment undergoes an expert quality check and service to ensure it meets applicable Philips quality standards:

- Inspected and tested for performance following Philips procedures
- All necessary repairs including planned maintenance
- Cosmetic rework available on selected products
- Pre-defined configurations with upgrade possibilities¹

Revalue what's sustainable

Select Edition systems have a second chance to fulfil their lifetime usage potential, so you minimize your impact on the environment:

- Locally-sourced when available to reduce transport emissions
- Limits the need to extract virgin materials
- Add clinical capabilities and reduce your carbon footprint
- Supports reaching sustainability goals

Take the next step

Don't let equipment costs limit your capabilities; revalue your care potential with Select Edition. A smart way of thinking about how pre-owned can deliver accessible, sustainable, equitable care to more people.
