Newborn flow + Slow flow teat

0 m+ and 1 m+

SCD806

Clinically proven to reduce colic and discomfort*

Designed for uninterrupted feeding

Our Anti-colic bottle is designed to keep air away from your baby's tummy to reduce colic and discomfort, while also minimising feeding interruptions. With its integrated anti-colic valve, air is vented away from the baby's tummy.

Other benefits

- Compatible range from breastfeeding to cup
- Orthodontic soother
- Different teat flow rates available
- This bottle is BPA-free

Clinically proven to reduce colic and discomfort*

- Anti-colic valve proven to reduce colic*
- 60% less fussing at night*
- Teat shape designed for secure latch
- Ribbed texture prevents collapse for uninterrupted feeding

Easy to use, clean and assemble

- Leak-free design
- Wide neck bottle with rounded corner for easy cleaning
- Easy to clean and assemble with few parts
- Easy to hold

Highlights

Less colic

Our anti-colic valve is designed to keep air away from your baby's tummy to reduce colic and discomfort. As your baby feeds, the valve integrated into the teat flexes to allow air into the bottle to prevent vacuum build up and vents it towards the back of the bottle. It keeps air in the bottle and away from baby's tummy to help reduce colic and discomfort.

Helps settle your baby

Philips Avent Anti-colic bottle reduces fussing. Babies fed with Philips Avent Anti-colic bottles experienced 60% less fussing at night than babies fed with a competitor's anti-colic bottle.*

Uninterrupted feeding

The teat shape allows a secure latch and the ribbed texture helps prevent teat collapse for uninterrupted, comfortable feeding.

Secure latch

Teat shape designed for secure latch

Easy to assemble

Our Anti-colic bottle has few parts for quick and simple assembly.

Easy to hold

The unique bottle shape makes this bottle easy to hold and grip in any direction.

Easy to clean

With its wide neck and fewer parts, our bottle is easier to assemble and to clean quickly and thoroughly.

Leak-free design

Our Anti-colic bottle is designed to prevent leakage whilst feeding for a truly enjoyable feeding experience.

Orthodontic soother

The orthodontic, collapsible teat of the soother respects the natural development of baby's palate, teeth and gums. All our soothers are made from silicone and are taste and odour-free.

Growing up with your baby

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it!

BPA free

Philips Avent Anti-colic bottle is made of BPA free material (PP).

Fits your baby's growing needs

The Philips Avent Anti-colic bottle range offers different teat flow rates to keep up with your baby's growth. Remember that age indications are approximate as babies develop at different rates. All teats are available in twin packs: Newborn, Slow, Medium, Fast and Variable Flow, and Thick feed.
