Highlights

Our best plaque removal

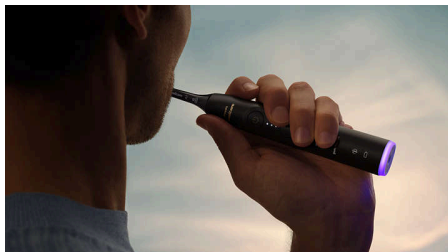

Support your gum health with this specially designed A3 Premium All-in-One brush head. Longer, angled bristles with triangular tips remove plaque even along the gumline. The result is up to 600% healthier gums in two weeks** and 2000% more plaque than a manual toothbrush*.

Next-Generation Sonicare Technology

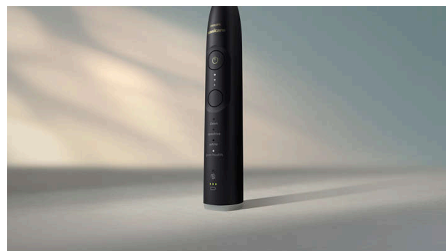

This electric toothbrush uses our Next-Generation Sonicare Technology which delivers our most reliable and consistent brushing for excellent results every time. The motor adjusts power automatically so there is zero drop in performance when you reach those harder-to-clean areas. Enjoy a gentle yet effective clean for your teeth and gums with 62,000 bristle movements per minute. Sonicare Fluid Action supports the bristles to clean by driving fluid deep between teeth and along the gumline.

Visual pressure sensor

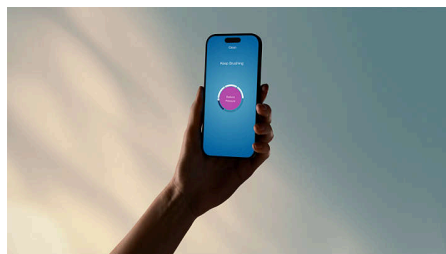

This Sonicare electric toothbrush has a light ring at its base that gently lets you know if you're overdoing the pressure. Simply ease off when it lights up and your gums will stay protected.

Modes & Intensities

Give your clean a boost with 12 brushing settings. Whether you want a little more vigor or a specific focus for your clean, you can have it. Choose between Clean, Sensitive, Gum Health and White mode. Pick one of three intensity settings.

Philips Sonicare app

Achieve your oral-health care goals with the Sonicare toothbrush and app. The two pair seamlessly to deliver guided brushing, tips and tricks, and content personalized to you. Together, you are unstoppable.

Charging travel case

Our charging travel case with an integrated charging port lets you recharge your device on the go. It is strong enough to keep your Sonicare toothbrush safe, yet compact enough to slip into any bag, making it the perfect travel companion.

SmartTimer & BrushPacer

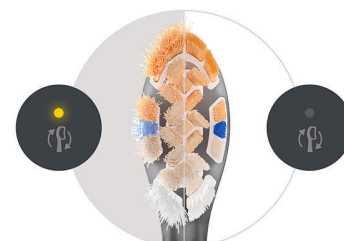

Ace your session time with Sonicare's cleaning timers. Every 20 seconds, the BrushPacer will prompt you to clean a new area. After 2 minutes, the SmartTimer will indicate your session is complete.

21-day battery life

Experience up to 21 days of regular brushing after a single charge. Bringing a new level of convenience to your brushing routine.

Replacement reminder

Did you know brush heads become less effective after three months? Dental professionals recommend changing your brush head regularly, that's why Philips Sonicare toothbrushes have brush head replacement reminder. It tracks how often and how hard you brush, then reminds you to replace your brush head once it's time for a new one.
