Car headlights bulb

Highlights

Road-legal LED bulb

The Philips Ultinon Pro6000 Boost range has been approved for road use in several European Union countries*, making it compliant with road-traffic regulations. As a result, Philips Ultinon Pro6000 Boost LED bulbs can safely replace traditional bulbs in a broad range of vehicles, from cars to two-wheelers, motor homes, vans and light trucks. Drive in confidence with our new Philips Ultinon Pro6000 Boost LED bulbs.

30% more compact design

The latest innovative generation of the Philips Ultinon Pro6000 Boost H4-LED bulb showcases a direct-fit body with an integrated IEC 60061-compliant base. The bulb's ultra-compact design makes it 30% smaller than its predecessor, improving mechanical fit in the narrowest headlights. The design simplifies light replacement for both high-beam and low-beam functions*, offering users improved versatility and utility. Check out our compatibility list for

Philips Ultinon Pro6000 Boost at Philips.com/roadlegalLED and get the best LED replacement for your halogen bulbs!

Unique light performance

You really can get more brightness from the same light output now. The Philips Ultinon Pro6000 Boost range features automotive industry-exclusive LEDs, combined with a revolutionary architecture that ensures unique optical performance. The result is an impressive boost of up to 300% more** brightness on the road! Upgrade your headlights to peak LED automotive performance with our Philips Ultinon Pro6000 Boost bulbs.

Exclusive light quality

The Philips Ultinon Pro6000 Boost features a brilliant white light beam achieved through a unique 5800 Kelvin colour temperature. Its optimal spectrum enhances the visibility of road signs, making them more easily discernible for

drivers. Philips Ultinon Pro6000 Boost bulbs are also equipped with our cutting-edge SafeBeam technology, producing a glare-free beam of light guaranteed not to dazzle oncoming drivers. With our Philips Ultinon Pro6000 Boost bulbs, enjoy clearer vision with exceptional lighting.

Better year-round comfort

The new generation of Ultinon Pro6000 Boost H4-LED bulbs features a new heat-dispersion system, which draws air from the base to the front of the bulb. As this flow of air warms the headlight diffuser, the headlight can be defrosted during harsh winters without further intervention. The result is unrivalled driving comfort, whatever the season.

Car headlights bulb

Highlights

Long-term durability

Featuring advanced AirBoost cooling technology, the Philips Ultinon Pro6000 Boost range is designed to improve heat dissipation, providing LED bulb life of up to 3000 hours. Its unique construction offers consistent, reliable performance, lasting six times longer than comparable halogen bulbs. For peace of mind, the Philips Ultinon Pro6000 Boost range has a full 5-year warranty, including a 2-year standard warranty and an additional 3 years' of extended protection***. Benefit now from all the advantages of improved light and the assurance of long-lasting performance.

Reliable Philips quality

With our extensive expertise in building premium automotive lighting products that prioritise safety and reliability, we excel in maintaining high-quality standards. Our range of Philips LED bulbs meets the strict requirements for electromagnetic compatibility (EMI) with vehicle systems and offers stable, professional-quality lighting. Rely on the world-renowned expertise of an automotive specialist.

Philips accessories for you

When retrofitting LED lighting, your vehicle's electrics may be disrupted by the integration of a low-power light source, resulting in various warning lights. Philips 3-in-1 CANbus Adapters have been developed to solve electrical problems such as dashboard warnings, light dimming and flickering. To find out if your vehicle model requires additional Philips CANbus Adapters, visit Philips.com/roadlegalLED*.

Product highlight: Up to +300% brightness, SafeBeam technology, AirBoost heat

management

Expected benefits: Road-legal, High brightness,

Easy to fit

Product description

Application: High Beam, Low Beam

Base: P43t-38

Colour temperature: 5800 K

Designation: LED H4 11342 U60B2 12 V 18 W X2

Designation LED Type: H4-LED Ingress protection rating (IP): IP55

Lifespan: 3000 hours

Light source: Automotive LED chips Operating Temperature: -40 to +105°C Range: Ultinon Pro6000 Boost HL

Technology: LED Type: H4

Driver box – Height (mm): 83.6 mm

ECE R37 certification: No ECE R10 certification

Polarity free

Homologation: National approval

Diameter: 27.3 mm

Light characteristics

Lumens: 1650/1000 lm

Electrical characteristics

Wattage: 18 W Voltage: 12 V
