- Control your soundbar and TV with a single remote

Highlights

Design that gets your approval

Elevate your space with our soundbar that's not only powerful but also elegant and sleek. Designed for the modern consumer in mind, it fits in perfect harmony to whatever your home aesthetic may be.

Immersive, powerful audio

Powerful, multi-directional sound can be experienced like never before with 5.1 channels and amazing power up to 600W max. From explosions on one end of the room, to footsteps that move from front to back, true surround sound without distortion brings your audio to the next level.

Impactful, deep bass

Experience true depth of sound without the clutter of wires. This soundbar comes with a wireless RF subwoofer and Integrated Rear Surround Speakers that even delivers audio from behind, for a more immersive and multi-dimensional soundscape.

High fidelity cinema sound

From crisp, sharp dialogue, to loud, intense action, immersive 3D audio is yours to enjoy on all types of media content with Dolby Atmos.

Enjoy high-fidelity, detailed audio and room-filling surround sound and further experience cinema quality sound like no other.

Less lag, enhanced stability

Whether you're listening to tunes, watching action or more with separate devices, connect them seamlessly to the soundbar via Bluetooth 5.4. Enjoy improved streaming and sound synchronization whilst utilising less energy, and experience smoother audio with reduced lag.

Expanded sound possibilities

Sync up to other devices seamlessly and expand your audio possibilities with versatile HDMI-eARC. Your home space remains clutter-free, while you can further extend connectivity of this soundbar via sound input from USB, Audio-in, and Optical input.
