Lets your little one's skin breathe

We've got your covered, day and night

Soothing and breathable with large airholes. 9 out of 10 parents agree: Philips Avent ultra air pacifiers are comfortable for my little one.** Glow in the dark version means comfort and relief are always easy to find. Now 80% plant-based.*

Designed for comfort

- Extra-large airholes let baby's skin breathe
- Orthodontic nipple designed for natural oral development
- Extra-firm nipple for healthy teething

Convenient, safe, and now more eco-friendly

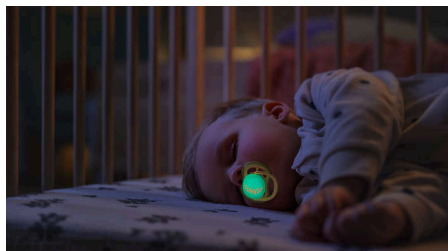

- Kinder to the planet with 80% plant-based materials*
- Sterilizing carrying case for fast, easy hygiene

Your ally, day and night

- Glow-in-the-dark version to find in the night

Highlights

Extra-large airholes

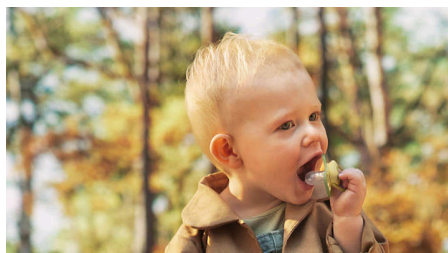

Holes in the shield ventilate your baby's skin, keeping it drier for ultimate soothing comfort.

Orthodontic silicone nipple

Our orthodontic nipples are designed using soft silicone to support natural mouth muscle movements, to help lower the risk of malocclusion. The narrow neck nipple is designed to reduce pressure between tongue and palate. Philips Avent ultra Pacifiers are independently accredited by the Oral Health Foundation. Made from 100% food-grade silicone, they are more durable and long-lasting than rubber (latex) nipples and free from BPA, BPS, phthalate, PVC, and polycyclic aromatic hydrocarbons.

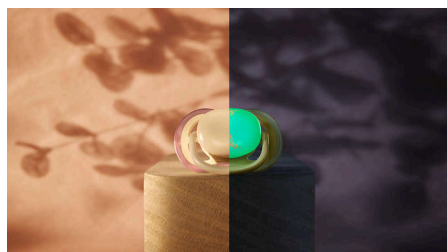

Extra-firm nipple

Our pacifiers are designed to facilitate natural tongue positioning, which is important for healthy speech development as your baby

grows. Extra-firm, to comfort baby during teething days. Our textured silicone nipple is designed to mimic the feel of mom's breast.

Glow-in-the-dark version

We've got you covered day and night. The cap of the glow-in-the-dark version gently glows so you can find it without turning on the lights.

80% plant-based*

More sustainable choices let you give the best care with less impact on the planet. The full Philips Avent ultra range features pacifiers and sterilizing cases made using 80% plant-based materials.*

Sterilizing carrying case

The carrying case doubles as a sterilizer so pacifiers are always ready when you need them. Just add water and microwave for 3 minutes for easy sterilization that generates up to 50% less CO2 emissions.***
