Your companion for years to come

- A quick 10-minute charge provides 8 hours of playback
- Philips Headphones app. Personalize settings and controls
- Warm, detailed, natural. Philips sound signature
- RCS-certified recycled plastic. Responsible packaging

Highlights

Thrilling sound

Silk-coated 40 mm drivers give you detailed sound—and Dynamic Bass brings you full, rich bass even at low volumes. The LDAC and LC3 codecs are supported so you can get the most from hi-res streaming, and you can listen wired via USB-C. Plus, you can turn on Spatial Audio in our app for a more immersive listening experience.

Noise Canceling Pro

Adaptive noise cancellation quickly reacts to your surroundings to suppress external noise, including wind, in real time. If you want to hear what's going on around you, Awareness Mode lets outside sounds back in. Quick Awareness enhances voices, so you can have a conversation without removing your headphones.

5-mic technology

If you're on a call, dedicated mics and a noise-reduction algorithm combine to clearly pick up your voice and reduce background noise. Even if you're on a busy urban street on a very windy

day—your voice will come through clearly, and the person you're speaking to won't be distracted by what's going on around you.

Up to 70 hours (with ANC off)

With noise canceling off, you get 70 hours play time from a full charge (with noise canceling on, you get 50 hours). For a quick boost, 10 minutes charging via USB-C gives you an extra 8 hours. Pairing is simple via our companion app, plus Android users can use Google Fast Pair and Windows users can use Microsoft Swift Pair.

Bluetooth® 5.4 and Auracast™

Bluetooth® 5.4 brings you a steadier connection for seamless, high-quality streaming, and multipoint connectivity lets you connect to two Bluetooth® devices at once. Support for Auracast™ means you can listen to public broadcasts: tune in to announcements at the airport or catch the commentary while you're in a sports bar.

Philips Headphones app

Our handy companion app lets you manage connected devices or turn adaptive noise cancellation off and adjust the levels yourself.

You can also use the app to scan for Auracast™ broadcasts, control sound features like Dynamic Bass and Spatial Audio, create custom sound presets, get the latest firmware—and more!

Recycled materials

We use post-consumer recycled plastics in this product, and our packaging is plastic-free. Inserts are printed on recycled paper with soy-based ink, and the packaging itself is made from FSC-certified recycled cardboard.

Your daily companion

The wide, soft headband can be adjusted via a hidden slider for the perfect fit—and the soft memory-foam ear-cup cushions can be replaced when they reach the end of their life. The ear cups fold flat and inward for easy portability, or safe storage in a drawer.

Philips sound signature

The custom drivers in these headphones are tuned to Philips sound signature, which brings you warm, detailed sound with rich bass. Whatever you're listening to, you'll love what you hear.

Specifications

Sound

Acoustic system: Closed
Frequency range: 20 - 40,000 Hz
Impedance: 16 Ohm
Sensitivity: 112 dB (1K Hz, 126mV)
