Take them anywhere

- Tough, durable and foldable
- Compatible with most devices. 3.5 mm to USB-C cable in box

Cool for calls, and great sound too

- Clear calls with friends and family
- Warm, natural sound. Philips sound signature
- Thoughtful design. Responsible packaging

Highlights

Volume limited to 85 dB*

Specially designed to be safe for young ears, these headphones have been volume limited to 85 dB*. Music, cartoons, films, educational videos: whatever they're into, you can relax knowing that they won't be listening too loud.

Kid-friendly comfort

Smaller earcups with soft earcup cushions keep these lightweight headphones comfortable for kids. The cushioned headband also adjusts easily for a perfect fit and features dots on the back that help children see which way round to put the headphones on.

Customisable earcups

The multi-coloured design makes the headphones stand out in all the right ways—and kids can customise their headphones using their own works of art! Simply lift the transparent earcup window, add their drawings or paintings, and click the window closed again.

Audio sharing

A built-in audio-sharing port means you can daisy-chain these headphones so kids can listen together from the same device. Simply connect a standard 3.5 mm headphone cable to the audio-sharing port on these headphones, then plug the other end of the cable into the headphone socket on the second pair of headphones.

Tough, durable and foldable

Made from durable, non-toxic materials, these headphones are built to withstand the rigours of daily use by kids. When not in use, they can be folded flat for easy storage in a drawer. Or you can fold them flat and inwards, creating a compact bundle that easily fits into pockets and bags.

3.5 mm to USB-C cable

These wired headphones connect to devices via USB-C, which makes them compatible with most laptops, phones and tablets. The detachable USB-C headphone jack adapter with attached 3.5 mm cable is included in the box.

Clear calls

A built-in microphone lets kids take calls with family and friends. A dedicated mic picks up the sound of their voice, while a noise-reduction algorithm quietens some of the background noise from the world around them.

Philips sound signature

From films to music, they'll love what they hear! These on-ear kids' headphones feature large 32 mm drivers, tuned to the Philips sound signature. Whatever they're into, they'll enjoy a warm, natural sound with deep bass.

Responsible design

These headphones feature recycled materials, while our plastic-free packaging uses FSC-certified recycled cardboard and soy-based ink. To avoid delivering unwanted cables, the 3.5 mm standard audio cable required to daisy-chain headphones is not included in the box.

Specifications

Sound

Acoustic system: Closed
Frequency range: 20 - 20,000 Hz
Speaker diameter: 32 mm
Impedance: 32 Ohm
