The perfect travel companion

- Stable Bluetooth® multipoint connection and Auracast™
- Up to 45 hours play time
- Comfy, sweat-resistant, customizable
- IPX4, earbud controls, three sizes of silicone ear tips

Seamlessly brilliant

- Quick charge for 15 minutes and get an extra 4 hours
- Philips Headphones app. Custom control
- Warm, detailed, natural. Philips sound signature
- Responsible packaging

Highlights

Great sound

The LDAC codec is supported so you can get the most out of hi-res streaming, and Dynamic Bass brings you full, rich bass even at low volumes.

You can also turn on Spatial Audio in our companion app to enjoy a subtle surround-sound effect for music or movies. Plus, the in-app equalizer lets you adjust the bass, treble, and voice to your liking.

Noise Canceling Pro

Adaptive noise cancellation automatically reacts to your surroundings to suppress external noise, including wind, in real time. To hear what's going on around you, simply tap an earbud to activate Awareness Mode. Or activate Quick Awareness to enhance voices and have a conversation without removing an earbud.

6-mic technology

If you're on a call, our six-mic setup and a noise-reduction algorithm will combine to pick up the sound of your voice and quiet background noise. Even if you're in a busy cafe, your voice will come

through clearly, and the person you're speaking to won't need to listen to all the other conversations going on around you as well!

Bluetooth® 6.0, Auracast™

Bluetooth® 6.0 ensures a fast, steady connection, and support for Auracast™ lets you listen to public broadcasts on your travels. You can connect to two Bluetooth® devices at once and manage connected devices via our app—plus Microsoft Swift Pair makes life easy for Windows users.

45 hours play time (9 + 36)

With noise canceling off, you get 9 hours play time from a full charge and an extra 36 hours from the pocket-sized charging case (with noise canceling on, you get 6 hours and an extra 24 from the case). For a quick boost, 15 minutes in the case gives you an extra 4 hours. The case can be charged via the USB-C (not included in the packaging).

Philips Headphones app

Our handy companion app is packed with features for your earbuds. Use the app to control noise canceling and wind-noise reduction,

manage connected devices, tweak the bass, treble, and voice frequencies, get the latest firmware—and more.

IPX4 and comfy in-ear fit

An IPX4 rating means these buds can handle the moisture if you sweat, and a little light rain won't bother them either. You get three sizes of silicone ear tips for the perfect fit, and you can customize how the earbud touch controls are set up via the Philips Headphones companion app.

Philips sound signature

The custom drivers in these headphones are tuned to Philips sound signature, which brings you warm, detailed sound with rich bass. Whatever you're listening to, you'll love what you hear.

Recycled materials

We use post-consumer recycled plastics in this product, and our packaging is plastic-free. Inserts are printed on recycled paper with soy-based ink, and the packaging itself is made from FSC-certified recycled cardboard.
