Highlights

Real-time notifications

Stay always in the know with real-time notifications whenever the lock is used. Instantly receive alerts for each unlocking event and check the history of your lock activities anytime via the app. Whether it's family members, guests, or service personnel, you'll always have visibility into who accessed your home and when.

4 ways to unlock

Choose the unlock method that fits your lifestyle the moment you arrive home. You can choose from unlocking with your fingerprint, PIN codes, keys, or just unlock the door with a gentle touch of the Philips Home Access app on your smartphone.

Sleek design

The sleek design brings a modern look to your front door. The high-quality touchscreen keypad comes in a variety of classic finishes to match your style.

Eco-friendly manufacturing

Built with 50% recyclable plastic and 100% recyclable packaging, the manufacturing process of this product aligns with Philips' ESG standards. As a Green Product, it minimizes environmental impact while maintaining exceptional quality and performance, reflecting our commitment to sustainability.

Remote control through app

With the Philips Home Access app, you can lock and unlock your door remotely, share PIN codes, monitor real-time notifications, and check your lock's activity history—all from your smartphone, ensuring complete control over your home's security no matter where you are.

Works with voice assistants

Seamlessly integrate the lock into your smart home system with Amazon Alexa or Google Assistant. Use voice commands to lock/unlock the door and check door status, offering convenient hands-free control.
