Innovative smart solution

- Simply share access anytime, anywhere

Enhanced security and safety

- Strict cyber security protects your data with local storage

Dedicated Stylish design

- Remote access gives control from anywhere, anytime
- Cross-platform voice control brings hands-free convenience

Highlights

Strict cyber security

Powered by Matter over Thread, this smart lock enhances your privacy by utilizing local storage for data instead of relying on cloud services.

With AES 128-bit encryption and all information securely stored and processed within your home, your personal data is protected from potential external threats. Enjoy peace of mind with technology designed for privacy.

Simple sharing

Share access with your family, so that they can also unlock the smart lock from the Philips Home Access app.

Remote access

Whether you're at work or on vacation, remote access allows you to lock and unlock your door from anywhere. With Matter's seamless integration and reliable Thread connection, you can check your lock's status, grant access to visitors, or secure your home—all from your smartphone, no matter where you are.

Multiple unlocking methods

Unlock your door using your fingerprint, PIN code, the Philips Home Access app, or other Matter-compatible apps. Control access with voice commands through platforms like Alexa or

Siri, or simply use a traditional key. Enjoy complete convenience and peace of mind for you and your family.

Auto-lock

With built-in door sensors and customizable settings in the Philips Home Access app, the lock can automatically secure your home when you leave, giving you peace of mind that your door is always locked.

Cross-platform voice control

This smart lock integrates smoothly with voice assistants like Amazon Alexa, Google Assistant, and Apple Siri, allowing you to lock or unlock your door hands-free. Whether you're multitasking or need to quickly check the door's status, a simple voice command gives you full control, enhancing both convenience and safety.

Lock activity records

Lock activity records on the Philips Home Access app offer a detailed record of all lock interactions and activities. From lock/unlock events to user access, you can now effortlessly track who accessed your lock when you arrived home. By providing a clear and comprehensive overview of your lock's history, our smart lock ensures you're in control of your home's security.
