Highlights

Multiple unlocking methods

Unlock your door using your fingerprint, PIN code, the Philips Home Access app, or other Matter-compatible apps. Control access with voice commands through platforms like Alexa or Siri, or simply use a traditional key. Enjoy complete convenience and peace of mind for you and your family.

Simple sharing

Share access with your family, so that they can also unlock the smart lock from the Philips Home Access app.

Strict cyber security

Powered by Matter over Thread, this smart lock enhances your privacy by utilizing local storage for data instead of relying on cloud services. With AES 128-bit encryption and all information securely stored and processed within your home, your personal data is protected from potential external threats. Enjoy peace of mind with technology designed for privacy.

Smart automations

Seamlessly integrate your smart lock with Philips and other Matter-compatible devices for enhanced automation in your home. Set routines, trigger actions, and customize experiences that fit your lifestyle. Enjoy the convenience of a connected ecosystem that works together effortlessly, making your home smarter and more efficient.

Remote access

Whether you're at work or on vacation, remote access allows you to lock and unlock your door from anywhere. With Matter's seamless integration and reliable Thread connection, you can check your lock's status, grant access to visitors, or secure your home—all from your smartphone, no matter where you are.

Auto-lock

With built-in door sensors and customizable settings in the Philips Home Access app, the lock can automatically secure your home when you leave, giving you peace of mind that your door is always locked.

Enhanced app connectivity

Matter-powered, this smart lock works effortlessly with Apple HomeKit, Google Nest, Amazon Alexa, and Samsung SmartThings. Control it from the platform you trust most—no compromises, no restrictions. Whether unlocking the door for guests or automating security at night, it adapts to your lifestyle.

Cross-platform voice control

This smart lock integrates smoothly with voice assistants like Amazon Alexa, Google Assistant, and Apple Siri, allowing you to lock or unlock your door hands-free. Whether you're multitasking or need to quickly check the door's status, a simple voice command gives you full control, enhancing both convenience and safety.
