Highlights

Extra care for sensitive teeth

Thorough cleaning can still be gentle on sensitive teeth and gums. This S2 Sensitive brush head features a unique design with long, thin, ultra-soft bristles that keep every brush stroke kind. With more than 3000 densely packed bristles, it helps you remove 10 x more plaque than a manual toothbrush*.

Next-Gen Sonicare Technology

This electric toothbrush uses our Next-Generation Sonicare Technology to give you a truly even clean throughout your whole mouth. The motor adjusts power automatically so there is a zero drop in performance when you reach those harder-to-clean areas. Enjoy a gentle yet effective clean for your teeth and gums with up to 62,000 bristle movements. Sonicare Fluid Action supports the bristles to clean by driving fluid deep between teeth and along the gumline.

Visual pressure sensor

This Sonicare electric toothbrush has a light ring at its base that lets you know if you're overdoing the pressure. Simply ease off when it lights up and your gums will stay protected.

Modes and Intensities

Give your clean a boost with 6 brush settings. Whether you want a little more vigour or a specific focus for your clean, you can have it. Choose between Clean and Sensitive mode. Pick one of three intensity settings.

Travel case

Our travel case allows you to take your device on the go. It is strong enough to keep your Sonicare toothbrush safe, yet compact enough to slip into any bag, making it the perfect travel companion.

SmartTimer and BrushPacer

Ace your session time with Sonicare's cleaning timers. Every 20 seconds, the BrushPacer will prompt you to clean a new area. After 2 minutes, the SmartTimer will indicate your session is complete.

Replacement reminder

Did you know brush heads become less effective after three months? Dental professionals recommend changing your brush head regularly. That's why Philips Sonicare toothbrushes have brush head replacement reminder. It tracks how often and how hard you brush, then reminds you to replace your brush head once it's time for a new one.

21-day battery life

Experience up to 21 days of regular brushing after a single charge, bringing a new level of convenience to your brushing routine.
