

# PHILIPS

Fast flow Softening+  
DIY filtration system

On-tap filtration

Carbon Block + Resin filtration

Reduces 99% chlorine

Large capacity - Fast flow

DIY installation, no power no  
noise

Fast flow  
on-tap water filtration

2.5L/min

AUT1211/79

## Crisp and pure tasting water

Straight from the tap, no power required

Enjoy crisp and pure-tasting water. Easily switch between filters and unfiltered water. The included filter cartridges are good for a full year of filtration (replacement codes AUT811 and AUT820).

### Build for your convenience

- QuickTwist filter replacement
- Cleaner water for the whole kitchen
- Advanced filter for superior, long-lasting performance
- Saves thousands of single-use plastic bottles every year
- Environment friendly
- Advanced filter for superior, long-lasting performance

## On-tap filtration

Fast flow Softening+ DIY filtration system

AUT1211/79

# Highlights

### QuickTwist filter replacement

Easy and hygienic filter replacement thanks to the QuickTwist design, without the need for additional tools

### Better water for whole kitchen

3-stage microfiltration improves water quality by effectively reducing chlorine, lead, pesticides so that you can enjoy safe, clean, great-tasting water, while achieving up to 2.5L/min fast flow.

### Pure-tasting water

It delivers silky-softened water to outlet throughout your tap, with ion exchange resins.

### Eco-friendly

Bottled water takes a significant toll on the environment, and also costly. With this water filtration system, you never need it again - you always have access to clean and fresh-tasting water.

### Energy saving

No need for power and no drain water.

### Long-lasting filter

Long lifetime: the carbon filter lasts for up to 24 months, while the resin filters last for up to 12 months.

# Specifications

### Filtration performance

Chlorine reduction  
Water hardness reduction  
Pesticides reduction  
VOC reduction

### Filter specifications

Filtration Precision: Down to 0.01 micron  
Stage of filtration: 3-stage  
CB filter lifetime: Up to 24 months  
Resin filter lifetime: Up to 12 months  
CB filter replacement: AUT811/79  
Resin filter replacement: AUT820/79

### General specifications

Rated water flow rate: 2.5L/min  
Product Dimension (LxWxH): 296\*99\*264 mm  
Inlet water temperature: 5-38°C °C  
Inlet water pressure: 0.1-0.4  
Applicable inlet water: Municipal tap water  
Installation: Vertical installation only
