1) \*corresponde al final de la producción.

2) \*\* LB corresponde a la luz corta /de paso, HB corresponde a la luz larga/de movimiento

3) El índice de luces largas especificado l'M con H7-LED o H4-LED difiere de la especificación del faro. La suma permitida de las características del haz principal de todos los faros de luz principal no debe superar 100. La marca de referencia l'M con H7-LED o H4-LED para el haz principal de cada modelo es la siguiente.

4) En caso de un mensaje de error, debe usarse el CANbus opcional.

5) Vehículos (SO.KFZ Wohnmobil y otras clases/tipos de carrocería) también están aprobados cuyos faros corresponden a la homologación de tipo UN(ECE) listado y han recibido una aprobación de varias etapas basada en el vehículo básico nombrado.

6) La aprobación en carretera de la lámpara LED Philips Ultinon Pro6000 solo es válida si se instala cuando sea necesario con accesorios originales de Philips. Por favor, revisa la lista de compatibilidad para ver si se requieren accesorios adicionales para tu vehículo.

7) La aprobación en carretera para el Volkswagen T5 solo se aplica cuando se instala el tipo de lámpara H4. Por favor, compruebe si su vehículo está equipado con lámparas halógenas H4 antes de comprarlo.

8) Para modelos de vehículos con función de luz de curva , se requiere el uso opcional del CANbus.

9) El año de producción no es relevante para la aprobación. Sirve como medio de orientación

10) Nota W5W-LED: La iluminación interior del vehículo, a diferencia de las funciones de luz exterior, no está sujeta a ninguna restricción legal respecto al modelo del vehículo o la función de la luz. Aquí, el W5W-LED puede usarse libremente, donde sea aplicable, como fuente de luz de reemplazo.

11) LH: faro izquierdo, RH: faro derecho
