- Easy control via speaker panel or our companion app
- Up to 8 hours of play time and a built-in carry handle
- Dimensions/weight: 42.5 x 30 x 30.1 cm, 4.6 kg

Highlights

40 W max (20 W RMS), Bass+

Love a good bassline? With its 8" woofer and our exclusive Bass+ technology, the bass on this party speaker will sound deep, rich and full—even if you're listening at lower volumes while chilling out at the end of the night. You get 40 W max (20 W RMS) of bold sound, and two 2" tweeters mean vocals don't just sing, they soar.

Bluetooth® 6.0

Stream your playlists, plug in a USB drive or go ahead and hook up your DJ decks or CD player via audio-in. If you're streaming tunes, Bluetooth® 6.0 brings you a faster, steadier connection for better sound quality that won't dip. It also gives you a wider range so you can control those playlists from practically anywhere in the party.

TWS and Auracast™ compatible

Want more? For a wider soundstage, you can pair it with another TAX2000 speaker via True Wireless Stereo (TWS). For bigger events or the ultimate house party, you can broadcast the tunes to as many Auracast™-compatible

speakers as you could ever need! Send the beats around the house or create a wall of sound in one room.

Mic input and echo effects

There's nothing like a karaoke session or even some impromptu club vocals for bringing everyone together. This party speaker comes equipped with a mic input: you can control the mic volume and add echo effects using physical controls on the speaker panel, or our companion app.

Beat-synced party lights

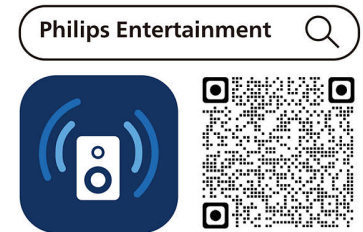

When the tunes are pumping, a rainbow of colourful RGB LED lights shimmer and pulse on the surface of this speaker's woofer. With 13 light-effect modes to choose from, you get to set the perfect vibe: simply press the light button on the speaker panel or use our companion app to get the light show started.

Up to 8 hours of play time

Rock up ready to party all night! The built-in carry handle makes it easy to take this party speaker with you, and the rechargeable battery

gives you up to 8 hours of play time from a full charge. Recharging the battery fully takes approximately 3.5 hours.

Easy control

You can take control of the volume, lights and karaoke effects via the speaker panel—or use the Philips Entertainment app, which also lets you fine-tune bass and treble frequencies. Want to keep the neighbours happy? You can turn Bass+ off and scale back the bass via our app or the Bass+ button on the speaker.
