

A diagram illustrating the connection between a laptop and a monitor. A blue arrow points from the laptop screen to the monitor. The monitor displays the Precision Center logo, which consists of a stylized 'P' inside a circle, with the text 'PRECISION CENTER' below it.

A large, sleek, black monitor is shown from a three-quarter perspective. It is mounted on a silver-colored, adjustable stand. The monitor's screen displays a high-contrast, grayscale image of flowing liquid or smoke, creating a sense of motion. The stand has a base with a circular adjustment knob and a vertical support arm. The overall design is modern and professional.

The diagram illustrates the connectivity options on the back of the monitor. A laptop is connected to the HDMI 1 port. A power supply unit is connected to the HDMI 2 port. A USB drive is connected to the USB 1 UP port. A Fast Charger is connected to the USB port. Audio output is shown connected to speakers.

The diagram illustrates the physical setup and the sequence of button presses to enter the menu. At the top, a monitor is shown mounted on a base. A hand is shown pressing the 'Menu' button on the bottom right of the monitor. Below the monitor, a sequence of button presses is shown: first, the 'SmartImage' button (a square with a magnifying glass icon), then the 'Input' button (a square with a monitor icon), then the 'Game Mode' button (a square with a game controller icon), and finally, the 'Menu' button (a square with a list icon). Arrows indicate the sequence of presses.
