- Results that patients love
- Dual Barrel technology for reliable whitening

Clinically proven results

- Proven up to 8 shades whiter in 2 weeks

NiteWhite 10%

Take-home whitening treatment

DIS580/11

Highlights

Up to 8 shades whiter

The in-vivo clinical study concluded that use of NiteWhite 10% CP for 14 days resulted in up to 8 shades of colour change.

Safe for enamel

Proven safe on enamel. Professional results your patients can trust

Little to no sensitivity*

Designed to prevent tooth sensitivity caused by whitening. Gel contains potassium nitrate and sodium fluoride for patient comfort. 100% of patients confirmed they experienced little to no tooth sensitivity after 14 days of use *

Results that patients love

88% of patients were satisfied with their results*

Dual Barrel technology

Dual Barrel technology keeps active gel and booster agents separate until patients apply gel to the tray for the best balance of efficacy, safety and longevity. This feature maintains the ideal whitening pH, keeps the gel fresh and stable for longer shelf life, and eliminates the need for refrigeration
