Superb patient experience

- Little-to-no sensitivity* after 14 days of use
- Results that patients love
- Dual Barrel technology for reliable whitening
- Easy to use thanks to included Quick Start Guide

Clinically proven results

- Proven up to 9 shades whiter in 2 weeks

Highlights

Up to 9 shades whiter

The in-vivo clinical study concluded that use of NiteWhite 22% CP for 14 days resulted in up to 9 shades color change.

Safe for enamel

Proven safe on enamel. Professional results your patients can trust

Little-to-no sensitivity*

Designed to prevent tooth sensitivity caused by whitening. Gel contains potassium nitrate and sodium fluoride for patient comfort. 100% of patients confirmed they experienced little-to-no teeth sensitivity* after 14 days of use

Results that patients love

88% of patients were satisfied with their results*

Dual Barrel technology

Dual Barrel technology keeps active gel and booster agents separate until patients apply gel to tray for the best balance of efficacy, safety and longevity. This feature maintains the ideal whitening pH, keeps the gel fresh and stable for longer shelf-life, and eliminates the need for refrigeration

Easy to use

100% of patients agreed that Philips Zoom! Take-Home instructions are easy to follow*
