Clinically proven results

- Proven up to 5 shades whiter in 9 days

Take-Home Starter Kit

DayWhite 14% HP

DIS737/36

Highlights

Up to 5 shades whiter

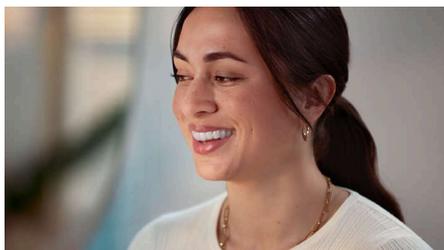

The in-vivo clinical study concluded that use of DayWhite 14% HP for 9 days resulted in up to 5 shades color change.

Safe for enamel

Proven safe on enamel. Professional results your patients can trust

Comfortable experience

Designed to prevent tooth sensitivity caused by whitening. Gel contains potassium nitrate and sodium fluoride for patient comfort. 78% of users reported experiencing no more than minimal teeth sensitivity after 9 days of use*

Dual Barrel technology

Dual Barrel technology keeps active gel and booster agents separate until patients apply gel to tray for the best balance of efficacy, safety and longevity. This feature maintains the ideal whitening pH, keeps the gel fresh and stable for longer shelf-life, and eliminates the need for refrigeration

Easy to use

Easy to use thanks to included Quick Start Guide
