Build for your convenience

- Designed and Manufactured to Australian Standards

Highlights

Watermark certified

In Australia, all plumbing and drainage products must be installed by a licensed plumber - and may only be installed if they carry WaterMark

certification. This Philips Tap Water Station is fully certified to meet the latest Australian and New Zealand standards, like AS/NZS 3497:2021 for drinking water treatment systems. The certification ensures the product complies with all regulatory, safety, and performance requirements for use in Australian homes.
