Airbag x vibration warm care relaxes your eyes

Air airbag ring, gently press to relax

This product integrates airbag massage, vibration massage, warm compress and music relaxation into one. Through a combined massaging approach, it helps the eyes achieve deep relaxation.

Powerful massage

- Air airbag ring, gently press to relax
- High-frequency micro-vibration massage to relieve intraocular pressure

Differentiated design

- The heat sensation penetrates deep into the skin
- 6+N kinds of music, immerse and relax
- Blocking light and providing a comfortable sleep
- 120 minutes of long battery life

Ingenious design

- Four massage modes to meet your needs in various scenarios
- Making it friendly for business trips

Highlights

Apply a large area of warm compress to the eye bag

At 45°C±3°C, the temperature-sensing heat compress provides even heat distribution, gradually penetrating the eye muscles to allow your eyes to enjoy a warm and relaxed atmosphere.

4 Major relaxation modes to enjoy at will

It comes with four modes: soothing, invigorating, eye protection and warming, unlocking more scenarios for your daily eye massage. With intelligent voice prompts, you can freely switch between modes and temperatures.

Bionic Air airbag ring wrapping kneading

It adopts a multi-layer bionic Air airbag design. Through progressive pressurisation, it fits the contour around the eyes, providing in-depth massage and relaxation. Feel the filling and releasing of the massage around the eyes and the temples, with even and precise force.

6+N immersive listening experience for relaxation

It comes with 6 built-in Big white noise music tracks and supports Bluetooth connection to mobile phone players, allowing you to enjoy exclusive playlists at will and giving you a more immersive and pleasant relaxation time.

High-frequency micro-vibration massage

Equipped with an independent VibWave vibration micro motor, it vibrates and kneads at 10,000 RPM for relaxation. Repeatedly kneads and presses around the eyes gently and precisely, with an even vibration sensation, allowing you to enjoy a refreshing massage.

It is 180° foldable and easy to carry around

Upgraded to a 180° folding structure, combined with a 350 g low net weight body, it can be easily packed into a bag. When going out, you can enjoy an immersive massage experience as needed.

The 3D Suit features a light-blocking design

The refined 3D suit three-dimensional cutting is more ergonomic, closely fitting the facial contour. The concave design in the eye socket area does not press on the eyeball, and the circular massage is more comfortable.

It can last for a long time

Equipped with a 2000 mAh large-capacity battery, it can last up to 120 minutes on a single charge. It features a Type-C universal fast-charging interface for convenient energy replenishment. With dual enhancements, you don't have to worry about battery depletion.

Specifications

General specifications

Gross weight: 350 g

Power supply: Built-in battery

Colour: 3 colours

Massage type: Air pressure, Vibration, Hot compress

Battery capacity: 2000 mAh
