

PHILIPS

What's new in Elevate Plus?

Core image quality enhancements, AI and automation, and workflow improvements do even more to help you meet today's imaging challenges and elevate care.

EPIQ Elite Elevate Plus

For best-in-class performance when every detail counts — trust the exceptional imaging and workflows for your most demanding cases.

Affiniti Elevate Plus

Precision for every scan, every day — get the reliable performance and intelligent workflows that let you focus on patients, not equipment

Elevate image quality

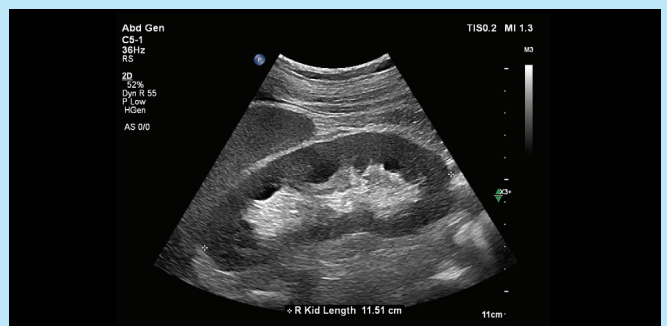

xRes Pro+ next-generation image processing on EPIQ Elite¹ that enhances sharpness and detail resolution to aid lesion detection and assessment

Elevate workflow

Our leading AI and automation

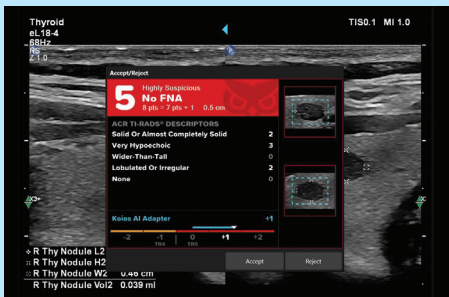

AI-powered Auto Measure Abdomen² for fast, consistent measurements

>93% accuracy
compared to manual
measurements by clinical expert³

55% reduced
measurement time⁴

Koios AI-based clinical decision support*: like a second opinion in just seconds for breast and thyroid on-cart or off-cart

Philips exclusive Smart Calipers designed for fast results off-cart

Modernized UI enhances the user experience with streamlined access to controls

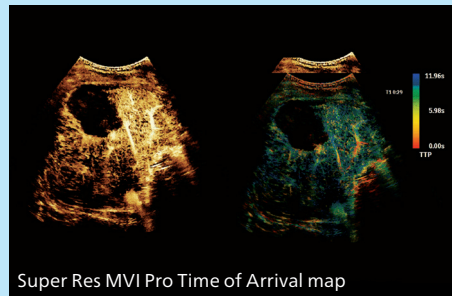

Built for how you work Elevate Plus introduces a refreshed user interface focused on clarity and ease of use

2D Auto Cine for effortless stable frame selection

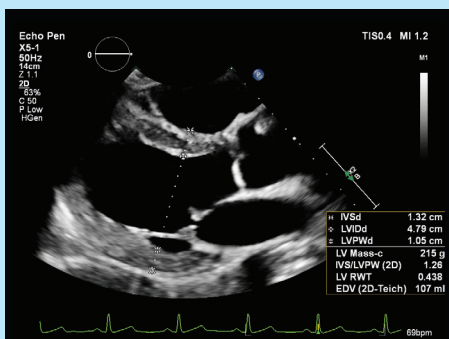

54.4% reduced time to select the best frame⁵

Super Resolution MVI Pro with Time of Arrival and Time to Peak or higher sensitivity and improved resolution in CEUS⁶⁻⁸

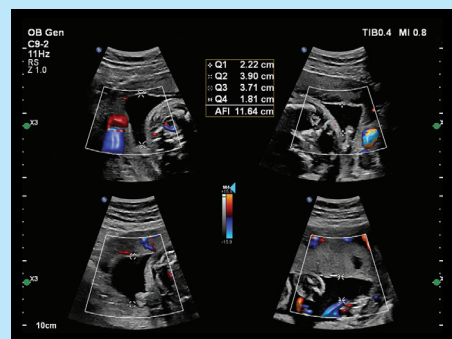

Streamline workflow with maps for Time of Arrival and Time to Peak

Advanced cardiovascular capabilities

Save time with 2D Auto LV,⁷ CV Doppler and 2D Auto Measure, 2D Auto EF Advanced⁷ and 3D markers⁷

Quad View/Quad View AFI displays four images simultaneously for efficient multi-view workflows and reduces variability in AFI measurement

54% reduced keystrokes⁹
72% time saved⁹

Elevate Plus delivers advanced image quality and AI-powered workflows designed to support efficient, reproducible exams and confident diagnosis. Purposefully designed with a familiar, intuitive experience, it helps organizations get more value from their ultrasound investment — today and into the future.

* Pending 510(k) - not available for sale in the USA.

References

1. Available only on EPIQ Elite.
2. Available on EPIQ Elite and Affiniti 70.
3. Internal documentation: Validation report D001785669. Obtained from a retrospective data analysis study involving data from 150 subjects (using MD.AI annotation tool, 3 clinical experts).
4. Internal documentation: Validation report D001785669. Evidence was obtained on a subset of data from 5 subjects (7 clinical experts) assessing the measurement time for saved images and not the scan time.
5. Internal documentation: Validation report D001785669. Reduction in time in abdominal scanning using Auto Cine.
6. Consult with your local sales representative regarding approved clinical indications in your region.
7. Available only on EPIQ Elite.
8. Compared to the previous version of Super Res MVI.
9. Internal documentation: Validation report D001785669. Compared to traditional AFI workflow.
