Highlights

16/7 operation

With 400 cd/m2 brightness, the UHD Philips Signage 2000 Series is designed to be used 16/7 – ideal for dawn to dusk businesses ready to make an impression.

Powered by Android 14

Powered by Android 14, your Philips Signage 2000 Series display is designed on a professional platform with trusted connectivity and security built in. Optimised for native Android apps and enabling you to install web apps and software directly onto the display, eliminating the need for an external media player.

Modularity built in

Extend your display into the future with our modular approach. Bringing opportunities to add WiFi and Bluetooth with the optional CRD22 module, as well as Philips ScreenShare, plus a firm focus on reuse and recyclability, as well as sustainability, with reduced WEEE disposal.

FailOver basics

FailOver basics via 5V hotplug detection. Critical for demanding commercial applications, FailOver via 5V hotplug allows you to set up a secondary content source that will automatically play in the unlikely event of the primary media feed failure.

Philips Wave ready

Unlock the power, versatility and intelligence inside your Philips Signage 2000 Series displays remotely with Wave. This evolutionary cloud platform puts you fully in control, with simplified installation and set-up, monitoring and controlling displays, upgrading firmware, managing playlists and setting power schedules. Saving you time, energy, and environmental impact.
