Emergency radio

Multi-powered

Portable IP55 build

Digital AM/FM tuning

SOS siren, light, whistle

TAR3500

Adventure Ready. Emergency Ready.

Stay connected and informed with this portable emergency radio. With multi-way charging, clear AM/FM reception, SOS alerts and an integrated power bank, torch and reading light, it's a must-have for camping, travel or emergency kits.

Emergency radio. Portable, reliable, versatile.

- Multi-powered: USB-C, solar, AAA batteries, hand crank
- Built-in 2600 mAh power bank with USB-A output
- Portable, durable build. IP55 dust/water-resistant design
- One-button SOS alert. Siren with light and dog whistle

Ready when you need it

- Stay informed with clear AM/FM radio reception anywhere
- Digital tuning, clear LED display, extendable aerial
- Extra-long battery life. Up to 60 hours of play time
- Long 530 mm strap: easy to carry or hang the radio

Features you can count on

- Torch, reading light and 3.5 mm headphone jack
- GRS-certified recycled plastic. Responsible packaging
- Dimensions (W x H x D): 186.2 x 103 x 77

Highlights

Multi-powered

When outages strike, this radio keeps working with USB-C, solar, hand crank or AAA battery power. Its built-in 2600 mAh power bank includes a USB-A output for charging phones and other small devices, so you can stay connected when the grid is down.

Portable, IP55 build

Designed for portability and durability, this emergency radio features an IP55 dust- and water-resistant housing for dependable performance outdoors. A compact build and long 530 mm carry strap make it easy to hang the radio in tents, vehicles or shelters, or even wear it while on the move.

SOS siren, light, whistle

An easy-to-reach orange SOS button on the side of the radio instantly activates both the SOS alert and an ultrasonic dog whistle. A loud siren sounds while a flashing light signals for attention, helping responders locate you quickly in an emergency.

Clear AM/FM reception

Digital AM/FM tuning and a clear, easy-to-read LED display make it simple to find stations quickly, while the extendable 550 mm aerial improves reception in remote areas. If there's an emergency, you'll get access to critical alerts and local updates when power or mobile service is unavailable.

Up to 60 hours battery life

With its high-capacity 5200 mAh/3.65 V battery, this radio can play for up to 60 hours at moderate volume when fully charged. With multiple ways to power the battery, you're prepared for long trips, off-grid adventures and emergencies.

Torch and reading light

You'll be able to navigate in the dark, illuminate tasks and listen privately thanks to the built-in torch, reading light and headphone jack. Both lights feature simple on/off operation for ease of use.

Recycled materials

We use post-consumer recycled plastics in our products, and our packaging is made from FSC-certified recycled cardboard with inserts printed on recycled paper.

Specifications

Sound

Output Power: 3W
 Sound System: Mono
 Volume control: up/down
